Dynamic Statutory Interpretation William N. Eskridge, 1994 Contrary to traditional theories of statutory interpretation which ground statutes in the original legislative text or intent legal scholar William Eskridge argues that statutory interpretation changes in response to new political alignments new interpreters and new ideologies It does so first of all because it involves richer authoritative texts than does either common law or constitutional interpretation statutes are often complex and have a detailed legislative history Second Congress can and often does rewrite statutes when it disagrees with their interpretations and agencies and courts attend to current as well as historical congressional preferences when they interpret statutes Third since statutory interpretation is as much agency centered as judge centered and since agency executives see their creativity as more legitimate than judges see theirs statutory interpretation in the modern regulatory state is particularly dynamic Eskridge also considers how different normative theories of jurisprudence liberal legal process and antiliberal inform debates about statutory interpretation He explores what theory of statutory interpretation if any is required by the rule of law or by democratic theory Finally he provides an analytical and jurisprudential history of important debates on statutory interpretation

field this book is an indispensable addition to the scholarship on religion and law in America The End of Racism Dinesh D'Souza, 1996-09-30 The first comprehensive inquiry into the history nature and ultimate meaning of racism Current Legal Problems 1998 M. D. A. Freeman, 2000 This book is the fifty first volume of Current Legal Problems and contains the now customary selection of high quality essays by a group of outstanding scholars This volume gathers together a particularly valuable and broad ranging set of contributions which makes for a stimulating study of legal theory at the end of the millennium **When the Center Is on Fire** Diane Sue Harriford, Becky W. Thompson, 2021 In this lively and provocative book two feminist public sociologists turn to classical social thinkers W E B Du Bois Max Weber Karl Marx and mile Durkheim to understand a series of twenty first century social traumas including the massacre at Columbine High School the 9 11 attacks the torture at Abu Ghraib prison and Hurricane Katrina Each event was overwhelming in its own right while the relentless pace at which they occurred made it nearly impossible to absorb and interpret them in any but the most superficial ways Yet each uncovered social problems that cry out for our understanding and remediation In *When the Center Is on Fire* Becky Thompson and Diane Harriford assert that classical social theorists grappled with the human condition in ways that remain profoundly relevant They show for example that the loss of double consciousness that Du Bois identified in African Americans enabled political elites to turn a blind eye to the poverty and vulnerability of many of New Orleans s citizens The authors compelling sometimes irreverent often searing interpretations make this book essential reading for students activists generations X Y and Z and everybody bored by the 6 o clock news *Left Legalism/Left Critique* Wendy Brown, Janet Halley, 2002-11-22 A reader aimed at revitalizing left legal and political critique *Differences that Matter* Sara Ahmed, 1998-11-26 *Differences That Matter* challenges existing ways of theorising the relationship between feminism and postmodernism which ask is or should feminism be modern or postmodern Sara Ahmed suggests that postmodernism has been allowed to dictate feminist debates and calls instead for feminist theorists to speak back to postmodernism rather than simply speak on their relationship to it Such a speaking back involves a refusal to position postmodernism as a generalisable condition of the world and requires closer readings of what postmodernism is actually doing in a variety of disciplinary contexts Sara Ahmed hence examines constructions of postmodernism in relation to rights ethics subjectivity authorship meta fiction and film **Laws: Rigidity And Dynamics** Eliezer Rabinovici, 2024-09-10 Laws are they a human invention or are they independent and indifferent to our existence Are they there to be discovered dictated and enforced Are they absolute and rigid or do they evolve Are they applicable in some cases and irrelevant in others A group of multidisciplinary fellows and world leading mentors from all habitable continents met at the Nanyang Technological University Singapore and the IAS University of Birmingham UK to share and challenge their opinions on the subject The results of their deliberations are to be found in the chapters of this book The existence dynamics and flexibility of laws are analyzed in the arts economy engineering history philosophy and science The role of law in real life applications such as the historic transformations of

laws in South Africa the construction of dynamic cities within the law potential insurmountable obstacles to building quantum computers as well as charting the best route to low or even zero carbon emissions are addressed by the fellows and mentors The meetings were held within the framework of the Inter Continental Academia of the University Based Institutes of Advanced Studies The concept is also described in this book **New Directions in Law and Literature** Elizabeth Susan Anker, Bernadette Meyler, 2017 This collection of essays by twenty two prominent scholars from literature departments and law schools showcases the vibrancy of recent work in law and literature and highlights its many new directions since the field's heyday in the 1970s and 80s **What's Left of Theory?** Judith Butler, John Guillory, Kendall Thomas, 2002-09-11 First published in 2000 Routledge is an imprint of Taylor Francis an informa company *Foucault and Law* Peter Fitzpatrick, 2017-07-05 Few thinkers can have had a more diverse or a more contested impact on theorizing law than Michel Foucault This diversity is reflected in the wide range of Foucault's work and of the intellectual fields it has so conspicuously influenced Such diversity informs the present collection and is signalled in the headings of its four sections Epistemologies archaeology discourse Orientalism Political philosophy discipline governmentality and the genealogy of law Embodiment difference sexuality and the law The subject of rights and ethics Whilst the published work selected for this collection amply accommodates this diversity it also draws together strands in Foucault's work that coalesce in seemingly conflicting theories of law Yet the editors are also committed to showing how that very conflict goes to constitute for Foucault an integral and radical theory of law This theory ranges not just beyond the restrained and diminished conceptions of law usually derived from Foucault but also beyond the characteristic concern in Jurisprudence and Legal Philosophy to constitute law in its difference and separation from other socio political forms
