Traumatic Brain Injury Robert P. Granacher, Jr., 2015-03-02 Traumatic Brain Injury Methods for Clinical and Forensic Neuropsychiatric Assessment Third Edition provides physicians and psychologists with a scientifically based schema for the clinical evaluation of traumatic brain injury TBI The book assists physicians and psychologists in developing treatment plans for patients who have sustained TBIs and also guides those providing forensic analysis to lawyers insurance bodies workers compensation systems triers of fact and other stakeholders in the adjudication of victims of TBI The procedures and recommendations in this book are grounded in highly referenced evidence based science but also come from more than 5000 cases wherein the author and contributors have personally examined individuals who have sustained a TBI or who claim to have sustained a TBI This edition has been entirely rewritten The style now follows a more traditional neuropsychiatric format than previous editions Since the last edition there has been increased awareness and scientific study regarding the effects of blast brain injury as a consequence of US military experiences in Afghanistan and Iraq There is also increased interest in the phenomenology of mild traumatic brain injury and in particular the forensic complications associated with evaluations of this disorder Chronic traumatic encephalopathy has also received significant scrutiny in the last decade possibly associated with sports injuries This book is a comprehensive resource for clinicians treating patients as well as for forensic specialists Its purpose remains the same as in prior editions to provide physicians or psychologists with a practical method for an effective evaluation of TBI based upon known scientific principles of brain behavior relationships and state of the art clinical neuroimaging neuropsychological and psychological techniques

Foundations of Forensic Vocational Rehabilitation Rick Robinson, 2013-12-03 This is the first fundamental text to focus specifically on forensic vocational rehabilitation a field that is forecast to grow rapidly Forensic vocational rehabilitation consultants evaluate the vocational and rehabilitation needs of individuals in an array of legal settings such as civil litigation workers compensation Social Security disability and others The text is unique in its exploration of the vocational rehabilitation process from a biopsychosocial perspective that views disability as a complex and multidimensional construct The book comprehensively

describes the parameters and theoretical issues of relevance in evaluating and developing opinions in forensically oriented matters. It culls and synthesizes current peer reviewed literature and research on this private subspecialty practice area of rehabilitation counseling including theories, models, methods, procedures and fundamental tenets of the field. Also included is current information about the labor market, life care planning and professional identity, standards and ethics. The text is designed for graduate and postgraduate students in rehabilitation counseling and psychology as well as practicing forensic vocational rehabilitation consultants and professionals moving toward practice in this arena. Chapters are authored by noted scholars or published practitioners in each subject area and include an introduction to the content area, discussion of key terminology and concepts and a review of the current and historical literature with emphasis toward future research needs and evidence based practice. The book fulfills the requirement by the Commission on Rehabilitation Education (CORE) for training in this subject area at the graduate level for new certification or certification maintenance. Key Features: Comprises the only foundational text to focus specifically on forensic vocational rehabilitation. Synthesizes peer reviewed research into one authoritative source. Describes the role, function and scope of practice of the rehabilitation counselor in private forensic vocational rehabilitation practice. Fulfills CORE requirements for certification.

Handbook of Vocational Rehabilitation and Disability Evaluation Reuben Escorpizo, Sören Brage, Debra Homa, Gerold Stucki, 2014-12-01. This book presents the state of the art in the application and implementation of the WHO's International Classification of Functioning, Disability and Health (ICF) in the areas of vocational rehabilitation as a primary topic and disability evaluation as a secondary topic. Application of the ICF and implementation strategies toward a holistic and comprehensive approach to work disability and vocational rehabilitation programs are presented along with clinical cases and exercises. The ICF as a topic in health and disability has been gaining momentum since its approval by the World Health Assembly in 2001 and great progress has been made since then. However, the integration of the ICF in the realm of vocational rehabilitation has been lacking despite the fact that work and

employment are a major area in people's lives particularly those who have work disability This book will advance the professional practice of vocational rehabilitation rehabilitation counseling occupational medicine and allied health science
