Founding Myths Ray Raphael, 2014-07-04 First published ten years ago award winning historian Ray Raphael's *Founding Myths* has since established itself as a landmark of historical myth busting. With the author's trademark wit and flair *Founding Myths* exposes the errors and inventions in America's most cherished tales from Paul Revere's famous ride to Patrick Henry's Liberty or Death speech. For the seventy thousand readers who have been captivated by Raphael's eye opening accounts history has never been the same. In this revised tenth anniversary edition Raphael revisits the original myths and explores their further evolution over the past decade uncovering new stories and peeling back additional layers of misinformation. This new edition also examines the highly politicized debates over America's past as well as how school textbooks and popular histories often reinforce rather than correct historical mistakes. A book that explores the truth behind the stories of the making of our nation National Public Radio this revised edition of *Founding Myths* will be a welcome resource for anyone seeking to separate historical fact from fiction.

The International status of education about the Holocaust Carrier, Peter, Fuchs, Eckhardt, Messinger, Torben, Georg Eckert Institute for International Textbook Research (Germany), 2015-01-14 How do schools worldwide treat the Holocaust as a subject? In which countries does the Holocaust form part of classroom teaching? Are representations of the Holocaust always accurate, balanced and unprejudiced in curricula and textbooks? This study carried out by UNESCO and the Georg Eckert Institute for International Textbook Research compares for the first time representations of the Holocaust in school textbooks and national curricula. Drawing on data which includes countries in which there exists no or little information about representations of the Holocaust the study shows where the Holocaust is established in official guidelines and contains a close textbook study focusing on the comprehensiveness and accuracy of representations and historical narratives. The book highlights evolving practices worldwide and thus provides education stakeholders with comprehensive documentation about current trends in curricula, directives and textbook representations of the Holocaust. It further formulates recommendations that will help policy makers provide the educational means by which pupils may develop Holocaust literacy.
