instruments are designed and applied in fieldwork on the case destination Concarneau using the detective novel *The Yellow Dog* which is set in Concarneau. Analysis of the findings from this provide a new contribution to the field of literary theory in the area of reader interpellation and answer the research questions in the form of a new set of recommendations for DMOs and tourism stakeholders. From the empirical study that used Web 2.0 social media only available since 2013 an analysis of which novels do stimulate literary tourism is presented for the first time. Out of the research process new methods have been evolved and are presented in the conclusion for the DMO to synthesise and leverage digital resources. This provides DMOs with interpretation processes for its managed heritage to use with its local stakeholders in hotels and in tourism businesses. Finally an innovative conceptualisation of what constitutes tourism knowledge is proposed.
