## **The Eib Financial Instruments And Innovation:**

**The Reinvention of Development Banking in the European Union** Daniel Mertens, Matthias Thiemann, Peter Volberding, 2021-01-21 National development banks NDBs have transformed from outdated relics of national industrial policy to central pillars of the European Union's economic project. This trend, which accelerated after the Financial Crisis of 2007, has led to a proliferation of NDBs with an expanded size and scope. However, it is surprising that the EU, which has championed market-oriented governance and strict competition policy, has actually advocated for an expansion of NDBs. This book therefore asks: Why has the EU supported an increased role for NDBs and how can we understand the dynamics between NDBs and European incentives and constraints? To answer these questions, the contributing authors analyze the formation and evolution of a field of development banking within the EU, identifying a new field around an innovative conceptualization of state-backed financing for the purposes of policy implementation. Yet, rather than focusing solely on national development banks, the authors instead broaden the focus to the entire ecosystem of the field of development banking, which includes political institutions both in Brussels and in the member states, financing vehicles such as the Juncker Plan, regulatory bodies, Directorate General for Competition, Directorate General for Economic and Financial Affairs, and commercial actors. Seven in-depth case studies on European NDBs, along with three chapters on European-level actors, detail this field of development banking and answer the questions of when, where, and how development banking occurs within the EU.

*Financial Crisis Management and Democracy* Bettina De Souza, Guilherme, Christian Ghymers, Stephany Griffith-Jones, Andrea Ribeiro Hoffmann, 2020-12-09 This open access book discusses financial crisis management and policy in Europe and Latin America with a special focus on equity and democracy. Based on a three-year research project by the Jean Monnet Network, this volume takes an interdisciplinary comparative approach, analyzing both the role and impact of the EU and regional organizations in Latin America on crisis management as well as the consequences of crisis on the process of European integration and on Latin America's regionalism. The book begins with a theoretical introduction exploring the effects of the paradigm change on economic policies in Europe and in Latin America and analyzing key systemic aspects of the unsustainability of the present economic system, explaining the global crises and their interconnections. The following chapters are divided into sections. The second section explores aspects of regional governance and how the economic and financial crises were managed on a macro level in Europe and Latin America. The third and fourth sections use case studies to drill down to the impact of the crises at the national and regional levels, including the emergence of political polarization and rise in populism in both areas. The last section presents proposals for reform, including the transition from finance capitalism to a sustainable real capitalism in both regions and at the inter-regional level of EU-LAC relations. The volume concludes with an epilogue on financial crises, regionalism, and domestic adjustment by Loukas Tsoukalis, President of the Hellenic Foundation for European and Foreign Policy (ELIAMEP). Written by an international network of academics.

practitioners and policy advisors this volume will be of interest to researchers and students interested in macroeconomics comparative regionalism democracy and financial crisis management as well as politicians policy advisors and members of national and regional organizations in the EU and Latin America

**EIB Investment Report 2017/2018** European Investment Bank, 2018-09-07 The EIB Investment Report is the bank's flagship research report aiming to deepen our understanding of investment and investment financing in the EU. It presents and analyses the 2017 release of the EIB Investment Survey EIBIS of businesses in the EU which also includes a Europe-wide survey of municipal authorities. Following a theme of From recovery to sustainable growth it describes how the investment recovery in Europe continues to strengthen and become more broad-based across countries sectors and asset classes. Business investment is being driven by the improving outlook and efforts to keep pace with competitors but there is still need to improve business environment. This investment recovery is generally supported by good financing conditions for firms but deleveraging remains a drag. EU firms continue to be net savers overall suggesting that many firms are unwilling to invest despite a liquid financial position. Nonetheless with the improving economy there also emerge structural investment needs in innovation skills infrastructure and sustainability. The EU continues to fall behind global peers in terms of R D spending while other types of intangibles software training organisational capital etc prove to be just as important. Business environment has to improve further. Persistent financial fragmentation across the EU could slow convergence and reduce capacity to absorb shocks. This report indicates that there is a window of opportunity to address structural investment needs through both public and private investment with targeted policy intervention to ease specific constraints.

**Innovation in Capitalist Economies** Faruk Ülgen, Lyubov Klapkiv, 2025-03-03 Innovation is critical to increasing global prosperity and also essential to surviving and overcoming the ongoing challenges of pandemics wars climate change and systemic financial turmoil. At the same time major corporations seek to transform new knowledge and scientific progress into profitable innovations and to increase their influence over society. But if as these firms claim this tremendous innovativeness has a positive long-term effect on our lives who ultimately pays the price for this development? This edited volume tackles issues related to innovation dynamics of modern capitalist economies exploring the nature the effects and the dynamics of innovative behaviour and the social impact of related policies. The first part of the book includes chapters on the selected drivers of innovative changes that driven by companies. The focus is made on organizational and financial determinants of innovations as well as on creative communities and social cooperation in networks that promote creative decisions. The second part is devoted to the innovations that play a role in the creation of added value and new financial solutions that allow companies to keep their vitality under the pressure of multiple events such a pandemic climate policies or growing geopolitical risk. Together the contributors explore the various impacts of innovation on the way we are organizing capitalist economies in the 21st century. This book will be of great interest to readers of the political economy of financial and economic development innovation banking and finance studies.

economic policy and economic crises      Ten years of the Vienna Initiative 2009-2019 European Investment Bank,2019-12-19

This year the Vienna Initiative marks its 10th anniversary For this special occasion the Steering Committee has prepared a commemorative book with essays and contributions from the key actors and institutions instrumental to the work of the Vienna Initiative since its inception This volume provides a unique window on the Vienna Initiative s innovative crisis mitigation activities its subsequent evolution and its current scope At the time of the Lehman crisis international institutions national authorities and international commercial banks collaborated closely taking full responsibility for their strategies in the CESEE region and voluntarily providing firm commitments on their activities In the form of the Vienna Initiative they built a functioning coordination platform capable of transforming and evolving according to changing needs Ten years later this coordination platform remains an important of effective inter institutional and private private sector cooperation The establishment of the Vienna Initiative was far from easy However given the size of euro area banks cross border operations in CESEE a disorderly deleveraging would have been very costly for both CESEE countries and the foreign banks With this in mind the main stakeholders eventually got together to participate in the Vienna Initiative and achieve its main objective The foreign banking groups committed to maintain their presence in the region while the EIB EBRD and the World Bank Group provided substantial financing to banks and the real economy These efforts had a major positive impact on the region They helped curb liquidity disruptions and restore confidence in the banking system while alleviating balance of payments pressures This coordinated response from commercial banks and IFIs was a prerequisite for the success of the IMF funded macroeconomic adjustment programs in several CESEE countries Over time the Vienna Initiative has transformed itself from a crisis mitigation instrument to a broader coordination platform dealing with the unique challenges of widespread cross border banking with regulatory and supervisory interdependence while supporting the emergence of an efficient deep and sound banking and financial sector that supports growth in the region In particular with CESEE countries on a solid recovery path the focus has shifted to tackling the legacy problem of high NPLs or to dealing with the impact of the EU s upgraded institutional framework particularly the creation of the Banking Union on the host countries most of which do not participate in the Banking Union With the region needing to transform up scale its innovation capabilities and adjust to technological change a dedicated working group has been set up to propose measures that could improve access to finance for innovative firms which typically lack tangible assets and thus may have hard time obtaining standard bank loans in a system that still offers limited alternatives The Vienna Initiative has been a major achievement of international coordination and an important instrument for the future of the CESEE region      Innovation Law and Policy in the European Union Massimiliano Granieri,Andrea Renda,2012-07-13 The book provides a critical overview of innovation policy in Europe and a synopsis of the current institutional framework of Europe shaped after the Europe2020 strategy and in view of the upcoming Horizon2020 agenda What emerges is a rather gloomy outlook for the future of Europe s innovation unless EU institutions and Member

States will decide to streamline existing policies and build a layered model of innovation in which governments act as investors in key enabling infrastructure such as ICT and education as enablers of large technology markets where researchers and entrepreneurs can meet and as purchasers of innovation when key societal challenges are at stake The book contains proposals for the future innovation strategy of the EU and a specific analysis of areas such as the unitary patent the transfer of technology particularly as far as climate related technologies and IP markets are concerned standardization and the digital agenda
