INCLUDES A MODERN LIBRARY READING GROUP GUIDE Essential Writings of Ralph Waldo Emerson (Library Classics). Ralph Waldo Emerson, 2023 *The politics of male friendship in contemporary American fiction* Michael Kalisch, 2021-07-20 How might our friendships shape our politics This book examines how contemporary American fiction has rediscovered the concept of civic friendship and revived a long tradition of imagining male friendship as interlinked with the promises and paradoxes of democracy in the United States Bringing into dialogue the work of a wide range of authors including Philip Roth Paul Auster Michael Chabon Jonathan Lethem Dinaw Mengestu and Teju Cole this innovative study advances a compelling new account of the political and intellectual fabric of the American novel today **Demystifying Meaningful Coincidences (Synchronicities)** Gibbs A. Williams, 2010-02-15 Demystifying Meaningful Coincidences Synchronicities The Evolving Self the Personal Unconscious and the Creative Process offers an original theory of the nature of meaningful coincidences synchronicities and their practical use from a naturalistic nonsupernatural and non Jungian perspective The findings are the outgrowth of Gibbs A Williams's forty year investigation both as a professional observer of some of his synchronicity prone patients receiving psychoanalytic psychotherapy as well as of his own intimate experience of these intellectually challenging and emotionally powerful occurrences His naturalistic perspective is in marked contrast to the findings of Jung and his followers who view these odd events as channeled messages from a transcendent realm of spiritual reality Instead Williams concludes that meaningful coincidences are the surface manifestations of an individual's unique creative process accommodating the best available resolution of a problem for a person initially feeling stuck in a seemingly intractable dilemma While his analysis robs the magic associated with only reacting to the numinous uncanny aura associated with synchronicities it nevertheless affirms a wondrous appreciation for the creative capacities of each person to order his or her own chaos Readers are treated to a rich mine of historical data novel concepts and theoretical insights drawn from speculative philosophy depth psychology and esoteric occult and spiritual traditions and they are shown how to decode their own synchronicities in order to be able to use their embedded messages for increased self awareness cohesiveness and expanding consciousness **Riding the Ice Wind** Alastair Vere Nicoll, 2010-06-28 Adrift in a life without

risk or surprise and with a burning desire to make some sense of his place in the world Alastair Vere Nicoll dived into the unknown Leaving the security of friends work and a wife he joined a team of young men to harness the katabatic winds and haul and kite surf across Antarctica the coldest windiest most violent continent on earth For Alastair Antarctica was a land of legend and mystery the ultimate test of strength endurance and bravery a place where he might feed his restlessness and find meaning in the emptiness Not since Shackleton had nearly perished attempting the same thing in his Endurance expedition had such a crossing been attempted This is the story of the first West to East traverse of the continent of Antarctica and of a race against time as Alastair fought to get home for the birth of his first child Told with honesty and wisdom and adorned with some bewitching descriptions of Antarctica Riding the Ice Wind is a compelling and subtly important book for our times *The Right to Oblivion* Lowry Pressly,2024 Constant digital surveillance has inspired a heated but also limited privacy debate Lowry Pressly looks beyond the narrow discourse of rights and information to extol privacy as a tool for living Privacy he argues not only reinforces our capacities for play self discovery connection and trust but also is vital to the search for meaning Tolerance and the Ethical Life Andrew Fiala,2005-05-12 In a fresh and exciting way this new book shows how tolerance connects with the practice of philosophy Andrew Fiala examines the virtue of tolerance as it appears in several historical contexts Socratic philosophy Stoic philosophy Pragmatism and Existentialism The lesson derived is that tolerance is a virtue for what Fiala calls tragic communities Such communities are developed when we come together across our differences but they lack the robust sense of connection that we often seek with others the complete sort of happiness that is offered by a more utopian ideal of community But rather than viewing this conclusion as a failure Fiala maintains that tragic communities are the best communities possible for human beings who are aware of their own individuality and finitude Indeed they are typical of the sorts of communities created by philosophers engaged in dialogue with others Tolerance and the Ethical Life will strongly appeal to specialists and upper level students in Ethics and Political Philosophy both for its unique historical exploration of tolerance and its application of those results to present day moral theory Um, Like...
