The Icarus Deception How High Will You Fly:

The Icarus Deception Seth Godin, 2012-12-31 In Seth Godin's most inspiring book he challenges readers to find the courage to treat their work as a form of art. Everyone knows that Icarus's father made him wings and told him not to fly too close to the sun; he ignored the warning and plunged to his doom. The lesson: Play it safe. Listen to the experts. It was the perfect propaganda for the industrial economy. What boss wouldn't want employees to believe that obedience and conformity are the keys to success? But we tend to forget that Icarus was also warned not to fly too low because seawater would ruin the lift in his wings. Flying too low is even more dangerous than flying too high because it feels deceptively safe. The safety zone has moved. Conformity no longer leads to comfort. But the good news is that creativity is scarce and more valuable than ever. So is choosing to do something unpredictable and brave. Make art. Being an artist isn't a genetic disposition or a specific talent. It's an attitude we can all adopt. It's a hunger to seize new ground, make connections and work without a map. If you do those things you're an artist, no matter what it says on your business card. Godin shows us how it's possible and convinces us why it's essential.

Navigate the Chaos in 2020 Michael Edmondson, Ph.D., 2019-11-08 This publication represents over ten years of note-taking involving backstories, historical events and academic research. Once the notes exceeded 200, the idea of a daily question came to mind. This is the third year for the *Navigate the Chaos* publication that contains 366 daily questions to consider. 2020 is a leap year. Since self-awareness forms the foundation for both personal growth and professional development, these questions served as a daily reminder to think about a critical issue related to your growth as a person and as a professional. Before you start your day during lunch or prior to going to bed, consider asking yourself the daily *Navigate the Chaos* question. See if you can find a few minutes to reflect upon a specific trait, habit or idea. Dedicating a few minutes each day can help you increase your self-awareness as you look to grow personally and professionally.

Be Different! Stan Silverman, 2019-11-28 The fundamental goal of any business is to be different, to be better than those with whom it is competing. Every company should be on a journey to be the preferred provider of products or services to its markets by offering a great customer/client experience. A preferred provider is the company that customers and clients preferentially want to do business with and often can charge a premium for what they provide. The fundamental goal of any individual is to be different, to be better than those with whom they are competing for that next job, whether internally or externally at a new company. Their goal is to demonstrate to the hiring manager that they are the best choice for that position. This book teaches how to be different. It is based on personal experience serving in the trenches as a CEO as well as a director on public, private and nonprofit boards.

The Instructional Playbook Jim Knight, Ann Hoffman, Michelle Harris, Sharon Thomas, 2020-11-25 In schools every day is game day. Every day teachers need the best resources and forms of support because students deserve the best we as educators can offer. An instructional playbook aims to serve as that kind of support, a tool that coaches can use to help teachers match specific learning goals with the right research-based instructional strategies. Coaches have enormous

potential to help teachers learn and implement new teaching practices but coaches will be effective only if they deeply understand the strategies they describe and their explanations are clear The Instructional Playbook The Missing Link for Translating Research into Practice addresses both issues head on and offers a simple and clear explanation of how to create a playbook uniquely designed to meet teachers instructional needs The idea of an instructional playbook has caught fire since Jim Knight described it in The Impact Cycle 2017 This book helps instructional coaches create playbooks that produce a common language about high impact teaching strategies deepen everyone s understanding of what instructional coaches do and most important support teachers and students in classrooms em A joint publication of ASCD and One Fine Bird Press
