and the realities of doing history *Reviving the Islamic Caliphate in Early Modern Morocco* Stephen Cory, 2016-04-08

Historians have long grappled with the question of how Islamic civilization so clearly dominant during the medieval period could fall completely under Western hegemony in the modern age. Many Western writers answer this question by referencing European ingenuity, initiative and transformative energy in contrast with Islamic parochialism, passivity and resistance to change. This book challenges such assumptions by studying the career of an aggressive sultan in early modern Morocco, Mulay Ahmad al Mansur (r. 1578-1603) who dared to take on the international super powers of his day and sought to redraw the map of Islamic Africa. Al Mansur is best known for launching a bold invasion across the Sahara desert to conquer the West African Songhay Empire. Most historians ascribe strictly economic motives for this assault, stating that the sultan wished to capture the prosperous gold trade that had traveled for centuries from West Africa to the Mediterranean. Dr Cory argues instead that Mulay Ahmad was pursuing more expansive goals than simply stuffing his coffers with West African gold, as evidenced by audacious claims made on his behalf in numerous panegyric texts produced by the sultan's court. Through a detailed analysis of official histories, documents and correspondence, writings by European observers and architectural evidence, he contends that the sultan sought to establish a Western caliphate that would eclipse the Ottoman Empire. Mulay Ahmad advanced this agenda through panegyric literature, elaborate court ceremonies, grand constructions, stunning military conquests and astute diplomacy with European powers, Ottoman officials and sub-Saharan rulers. Such assertions of universal caliphal authority had not been seriously promoted in Islam for over three hundred years before al Mansur's reign. Thus al Mansur sought to move his country forward into the modern age by returning to an institution that had governed Muslim lands during the fabled golden age of the Abbasid and Andalusian Umayyad caliphates. Through an investigation of the sultan's ambitions and achievements, Dr Cory provides new insight into the history of relations between Muslim states and the West.

Wealth, Poverty and Politics Thomas Sowell, 2016-09-06

In *Wealth, Poverty and Politics*, Thomas Sowell, one of the foremost conservative public intellectuals in this country, argues that political and ideological struggles have led to dangerous confusion about income inequality in America. Pundits and politically motivated economists trumpet ambiguous statistics and sensational theories while ignoring the true determinant of income inequality: the production of wealth. We cannot properly understand inequality if we focus exclusively on the distribution of wealth and ignore wealth production factors such as geography, demography and culture. Sowell contends that liberals have a particular interest in misreading the data and chastises them for using income inequality as an argument for the welfare state. Refuting Thomas Piketty, Paul Krugman and others on the left, Sowell draws on accurate empirical data to show that the inequality is not nearly as extreme or sensational as we have been led to believe. *Transcending Partisanship* through a careful examination of data, *Wealth, Poverty and Politics* reveals the truth about the most explosive political issue of our time.
