U.S. Immigration and Naturalization Laws and Issues Michael C. LeMay, Elliott Robert Barkan, 1999-11-30 The influx of millions of immigrants into the United States has profoundly impacted the nation's economy, culture, and politics. Since the founding of our country, our government has worked to control this migration by enacting different policies to deal with immigration and naturalization. Students can trace the history and development of issues surrounding these policies as well as the reactions to them through this unique and comprehensive collection of over 100 primary documents. Court cases, opinion pieces, and many other documents bring to life the controversies surrounding the subject of immigration. Explanatory introductions aid users in understanding each document and help to illuminate its significance to the reader. The major laws on immigration and naturalization are included in this useful volume and have been edited to include the principal provisions in each, thereby making them more accessible to students without compromising their quality and accuracy. These key primary documents are arranged chronologically to help the user discover what has and has not changed over the centuries. The introductory and explanatory texts help readers understand the issues being litigated, the social and cultural pressures that shaped each debate, and the ways in which biases of individual Justices and Presidents affected immigration and naturalization laws in this country. Immigration Law Handbook 2013 Margaret Phelan, James Gillespie, 2013-01-24 Providing an invaluable reference for immigration practitioners, this book builds on the proven success of previous editions to offer the most up-to-date coverage of recent immigration legislation, selected and annotated by experts with a wealth of practical experience. *United Kingdom Immigration Laws and Regulations Handbook Volume 1 Strategic Information and Basic Laws* IBP, Inc., 2016-06 *United Kingdom Immigration Laws and Regulations Handbook Strategic Information and Basic Laws* **Relative Population Densities and Immigration Policy of the United States** Niles Carpenter, 1926 **A History of American Immigration, 1820-1924** George Malcolm Stephenson, 1926 *Report of the Department of Immigration and Colonization* Canada. Chosen as a BBC History Magazine Book of the Year 2021 and shortlisted for the PEN Hessell-Tiltman Prize 2022. In the wedded stories of migration and the end of empire, Ian Sanjay Patel uncovers a forgotten history of post-war Britain. After the Second World War, what did it mean to be a citizen of the British empire and the post-war Commonwealth of Nations? Post-war migrants coming to Britain were soon renamed immigrants in laws that prevented their entry despite their British nationality.
