The Complete Recovery Room Book Anne Craig, Anthea Hatfield, 2021 The Complete Recovery Room Book Sixth edition is an essential resource for health care professionals involved in post operative care

The Complete Recovery Room Book Anthea Hatfield, 2014-02-27 The care that a patient receives in the first hours after surgery is crucial to minimizing the risk of complications such as heart attacks pneumonia and blood clots As the patient awakes from their drug induced coma it takes time for them to metabolize and excrete these drugs during which period they remain unable to care for themselves and at increased risk of harm The recovery room staff must manage both comatose and physiologically unstable patients and deal with the immediate post operative care of surgical patients The fifth edition of this popular book provides nurses surgeons and anaesthetists with clear guidance on how to manage day to day problems and how to make difficult decisions Previous editions of this book have established it as the definitive guide to setting up equipping staffing and administering an acute care unit It includes basic science such as physiology and pharmacology specific symptoms including pain and vomiting and has chapters devoted to the unique post operative needs of individual types of surgery This new edition brings this important text up to date and new drugs and techniques for monitoring are described A new section looks ahead to the future development and design of recovery rooms and how they can contribute to patient well being

Post-Operative Recovery and Pain Relief Roger J. Eltringham, William F. Casey, Michael Durkin, 1998 This updated and revised version of Eltringham's Post Anaesthetic Recovery contains sections each devoted to the current best practice in a particular area It describes the major problems that may be encountered during recovery from anaesthesia and suggests how they may be avoided by careful monitoring vigilant nursing and sound organization Post Operative Recovery and Pain Relief will thus be of interest not only to nursing staff working in operating theatres and post operative care units but also to those working in surgical units house officers and junior anaesthetists
