The Giza Power Plant Technologies Of Ancient Egypt Christopher Dunn:

The Giza Power Plant Christopher Dunn, 1998-08-01 Did a highly advanced civilization exist in prehistory Is the Giza Pyramid a remnant of their technology Then what was the power source that fueled such a civilization The technology of harmonic resonance claims renowned master craftsman and engineer Christopher Dunn In a brilliant piece of reverse engineering based on twenty years of research Dunn reveals that the Great Pyramid of Giza was actually a large acoustical device By its size and dimensions this crystal edifice created a harmonic resonance with the Earth and converted Earth s vibrational energies to microwave radiation The author shows how the pyramid s numerous chambers and passageways were positioned with the deliberate precision to maximize its acoustical qualities This may be the same technology discovered by Nikola Tesla and the solution to our own clean energy needs

Lost Technologies of Ancient Egypt Christopher Dunn, 2010-06-24 A unique study of the engineering and tools used to create Egyptian monuments Presents a stone by stone analysis of key Egyptian monuments including the statues of Ramses II and the tunnels of the Serapeum Reveals that highly refined tools and mega machines were used in ancient Egypt From the pyramids in the north to the temples in the south ancient artisans left their marks all over Egypt unique marks that reveal craftsmanship we would be hard pressed to duplicate today Drawing together the results of more than 30 years of research and nine field study journeys to Egypt Christopher Dunn presents a stunning stone by stone analysis of key Egyptian monuments including the statue of Ramses II at Luxor and the fallen crowns that lay at its feet His modern day engineering expertise provides a unique view into the sophisticated technology used to create these famous monuments in prehistoric times Using modern digital photography computer aided design software and metrology instruments Dunn exposes the extreme precision of these monuments and the type of advanced manufacturing expertise necessary to produce them His computer analysis of the statues of Ramses II reveals that the left and right sides of the faces are precise mirror images of each other and his examination of the mysterious underground tunnels of the Serapeum illuminates the finest examples of precision engineering on the planet Providing never before seen evidence in the form of more than 280 photographs Dunn s research shows that while absent from the archaeological record highly refined tools techniques and even mega machines must have been used in ancient Egypt

Giza: The Tesla Connection Christopher Dunn, 2024-01-30 Reveals how the pyramids of Egypt were sophisticated generators of clean energy Explains how the pyramids harmonized seismic energy which enabled the harvesting of electricity and the mitigation of earthquakes Shares recent cutting edge research on earthquake lights acoustic frequency measurements and energy concentration within the Great Pyramid the shafts of the Queen s Chamber the scorch marks that support the King s Chamber explosion hypothesis and the significance of the large void above the Grand Gallery Includes technical appendices written by experts and top researchers Sharing extensive new evidence and cutting edge research that the Great Pyramid at Giza was built as an energy harvesting machine Christopher Dunn details how the ancient

Egyptians generated clean power for their civilization and reveals how the pyramid builders and the great inventor Nikola Tesla drew from the same universal knowledge Looking at each part of the Great Pyramid from the internal chambers to its massive stone blocks to the pyramidion on top Dunn reveals how the pyramids in Egypt served to stimulate the release and collection of electrons in the Earth's crust by harmonizing seismic energy while also attenuating the accumulating stresses Drawing on exhaustive ongoing research by NASA scientists into the phenomenon known as earthquake lights Dunn shows how the pyramid builders were inspired by this phenomenon and learned to stress igneous rocks in order to harvest the resulting electron flow He looks in depth at recent research that supports the pyramid energy theory including new explorations of the shafts of the Queen's Chamber and analysis of the scorch marks on the ceiling of the Grand Gallery which supports the King's Chamber explosion hypothesis He examines the stunning significance of the large void above the Grand Gallery discovered in 2017 Dunn also analyses the results of extensive acoustic testing and measurements at ancient sacred sites and shows how the pyramids were tuned to the Earth's frequency While the pyramids sophisticated energy harvesting abilities are now in disarray and disuse some remnants of their technologies are still there waiting to be rediscovered and provide our civilization with an abundance of nonpolluting power

A view into the sophisticated and highly advanced civilization that preceded the world of the pharaohs Presents historical evidence of the civilization ruled by the gods that the Egyptians claimed preceded their own Explains who these prehistoric

people were what happened to them and why they built a series of pyramids along the west bank of the Nile River Traditional Egyptologists have long resisted the notion that the architectural achievements of the Ancient Egyptians required the existence of a much more sophisticated technology than would have existed at that time Yet no records exist explaining how why or who built Egypt's megalithic monuments and statues The ancient Egyptians did however record that their civilization resided in the shadow of a kingdom of gods whose reign ended many thousands of years before their first dynasty What was this Civilization X that antiquity's most accomplished people revered as gods The recent discovery of a large stone at one of Egypt's oldest ruins presents physical evidence that clearly and distinctly shows the markings of a machining process far beyond the capabilities of the Ancient Egyptians Likewise experimental modeling of the Great Pyramid's subterranean chambers and passageways gives scientific evidence to further support the theory that the civilization responsible for such magnificent monuments is much older than presently believed Ancient Egypt 39 000 BCE examines this evidence from historical and technical points of view explaining who these prehistoric people were what happened to them why they built their civilization out of granite and why they built a series of pyramids along the west bank of the Nile River Crimson Horizon: The Mysterious Sea Kings Of The Pacific Brien Foerster, 2012-11-30 The people of the Pacific known by most as Polynesians remain a mystery to scholars and the public alike as to their origins While most academics in the fields of archaeology and anthropology strongly insist that they exclusively came from 121 P a g e south east Asia other researchers and the oral traditions of the people themselves often differ with this opinion The presence of red hair called Ehu in Hawaii and Uru Kehu in some of the ancient and present populations suggest connections in the distant past with sea farers from coastal Peru especially the Paracas to account for this The famous explorer Thor Heyerdahl was insistent that there were ancient connections between Peru and the Pacific Islands and this book attempts to solve this riddle without delving into Celtic or other possible European ancestry Come explore the possibilities through science wind directions sea currents sculpture and oral traditions **God and the Gods** John Greco, 2013-06 God and the Gods presents the results of a personal journey to uncover the multifaceted pieces of information not covered in national news and hidden from the public for reasons unknown Volumes of additional information with stories and artifacts that are off limits to mankind This manuscript touches merely a few of the many secrets that society is hiding for its own benefit They are small pieces of a multidimensional puzzle in unraveling the real origin of mankind something that could change the history of who we are and where we came from Author John Greco opens our eyes to the possibilities that have accumulated over the years through the facts findings and scientific studies of the human body religious proof and archaeological discoveries being made throughout the world today The Bible is fact in most cases but there is much more to know The truth is out there and most of it is staring us in the face every day We as humans who worship a God we cannot see need to look in the right places and tie the many pieces of this amazing puzzle together God and the Gods gives you the opportunity to question the basic teachings of all
