Burgess, 1994 A mixture of theoretical analysis and case studies from Asia Africa Europe Latin America and the Middle East this book examines non violent direct action political action economic sanctions and social movements as alternative remedies in the struggle for justice The authors thus address the basic questions that underlie current debates in international politics over the use of preventive diplomacy humanitarian intervention and international enforcement action

The Vestibule of Hell Hugh Graham, 2001 The terms left and right have become ingrained in our minds in politics economics and social theory But as Hugh Graham argues in this absorbing book these concepts have always distorted and limited the way we think about politics and ourselves and this is true today more than ever Socialism versus capitalism collectivism versus individualism governmental programs versus the free market all these oppositions add up to an obsolete world view Graham explores the past present and future of left and right beginning with the French Revolution and taking readers through the Industrial Revolution communism and fascism past the Cold War and into our current puzzling state of affairs And Graham offers powerful hope for a more mature better rounded sense of community and individuality

The Philosophy of Francisco Suárez Benjamin Hill, Henrik Lagerlund, 2012-01-26 During the seventeenth century Francisco Su rez was considered one of the greatest philosophers of the age He was the last great Scholastic thinker and profoundly influenced the thought of his contemporaries within both Catholic and Protestant circles Su rez contributed to all fields of philosophy from natural law ethics and political theory to natural philosophy the philosophy of mind and philosophical psychology and most importantly to metaphysics and natural theology Echoes of his thinking reverberate through the philosophy of Descartes Locke Leibniz and beyond Yet curiously Su rez has not been studied in detail by historians of philosophy It is only recently that he has emerged as a significant subject of critical and historical investigation for historians of late medieval and early modern philosophy Only in recent years have small sections of Su rez s magnum opus the Metaphysical Disputations been translated into English French and Italian The historical task of interpreting Su rez s thought is still in its infancy The Philosophy of Francisco Su rez is one of the first collections in English written by the leading scholars who are largely responsible for this new trend in the history of philosophy It covers all areas of Su rez s philosophical contributions and contains cutting edge research which will shape and frame scholarship on Su rez for years to come as well as the history of seventeenth century generally This is an essential text for anyone interested in Su rez the seventeenth century world of ideas and late Scholastic or early modern philosophy

Korporatisme Dalam Undang-Undang Dasar 1945 E. Fernando M. Manullang, 2017-07-03

Penerbitan buku ini adalah upaya untuk mengangkat kembali persoalan sekitar UUD 1945 yang terus muncul dan tak pernah berakhir semenjak ia diamendemen pada awal abad ke 21 ini Persoalan itu berkisar pada romantisme yang menghendaki kita Republik Indonesia untuk kembali ke UUD 1945 asli Romantisme itu didorong pada semacam ketidakpuasan sebagian pihak yang melihat praktik praktik ekonomi di masa sekarang yang lebih bernuansa liberal atau propasar Tambah lagi angka angka pertumbuhan ekonomi yang propasar itu tidak terbukti memberikan kesejahteraan pada rakyat kebanyakan Itu mungkin terjadi menurut kalangan yang tidak puas itu karena spirit konstitusi kemerdekaan republik ini UUD 1945 telah dimanipulasi dan bahkan relatif disingkirkan oleh agenda agenda neokolonialisme dan neoliberalisme Yang menarik di atas fenomena tersebut mengapa sedemikian menariknya UUD 1945 ini sehingga masih terus digadang gadang sebagai jawaban atas

kekacauan di atas Mengapa semangat baru di masa kini tetap tidak diterima terlepas adanya kecacatan sistematis di dalam UUD 1945 Lalu mengapa jika semangat baru diadakan tetap saja romantisme akan hal yang baik dari UUD 1945 tetap dipelihara Di sinilah alasan tambahan lainnya yang menjadi latar mengapa naskah ini dipublikasikan di masa sekarang Saya menduga ini disebabkan oleh sifat harmonis yang ditawarkan oleh UUD 1945 yang menurut tuduhan sebagian pihak telah musnah dalam amendemen 1945 Buku persembahan penerbit PrenadaMediaGroup

Changing Face of War Allan Douglas English, 1998-06-02 Part I deals with the evolution of military strategy and doctrine from the Napoleonic Wars to today Contributors look at the influence of great military thinkers such as Carl von Clausewitz on the armed forces of the Western world and examine how previous military leaders dealt with issues similar to those faced today such as the effects of technology on strategy the significance of the operational level of war and ways of restructuring the armed forces in times of uncertainty and change Part II examines warfare at the end of this century Examples of the development of revolutionary warfare in Asia from Mao to Giap are used to underscore the cultural and situational influences on doctrines of revolutionary war Part III looks at the future of conflict in the twenty first century Contributors investigate diverse issues including the impact of computers on warfare the effect of media coverage on strategy space policy arms control in the post Cold War era political systems and their relationship to the probability of war and the prospects of stealth technology In an era when armed forces around the world have come under increasing scrutiny and criticism this collection of essays provides valuable lessons that may avert future military mistakes

A Comparative Introduction to Political Science Alan G. Smith, 2016-04-08 When are legislators inclined to cast votes in cooperation with their parties and when do they go their own way When and why do nations contend with each other and when are they more likely to cooperate Thematically arranged around the interplay of contention and cooperation A Comparative Introduction to Political Science encourages students to explore causal factors and consequences related to political phenomena to become knowledgeable and resourceful citizens of their nations and the world Alan Smith covers how patterns of contention and cooperation and the resulting government policies may be affected by such factors as the surrounding political framework the distribution of influence and political motivation including values as well as material interests To expose students to the politics of specific nations each chapter concludes with two country case studies that illuminate the theme of the chapter Students emerge with a sense of what is going on in the world today Pedagogically the book employs careful sequencing of topics and concepts for clarity and to introduce politics in a natural logical synchronized way At times Smith goes beyond sharp night and day terminological distinctions to add accessible ordinary language based terminology that better captures the real world spectrum between the extremes A Comparative Introduction to Political Science Contention and Cooperation

Slavery and the American Founding Jude M. Pfister, 2025-03-21 Since 1776 the Founding generation has been portrayed as creators of a new world where liberty and freedom were the inherent birthright of all peoples The Founders although brilliant were nonetheless human and fashioned a country conceived in liberty and freedom for themselves The enslaved women and other minorities were not part of the original Founding documents All men created equal was a political statement not some ethereal message of Enlightenment understanding This book demonstrates that to understand the American Founding is to understand the totality of America The American Founding and the so called compromises forged by state delegates to ensure national unity despite existing alternatives that could have rejected enslavement defined the period from 1765 to 1800 and planted the seeds for a horrific civil war Two of the most debated words from the Age of Enlightenment freedom and liberty not only made America independent but also made it dependent on an execrable system rejected by most of the European thinkers who inspired the uprising against Britain

The United States, China, and the Competition for Control Melanie W. Sisson, 2024-11-22 This book considers whether the United States and the People's Republic of China have irreconcilable visions of world order The United States China and the Competition for Control evaluates the twin claims that China seeks to dismantle the post World War II international order and that the United States seeks to defend it It defines the post war order and examines how the United States and China have behaved within and in relation to it since 1945 An analysis of the two states rhetoric and policy reveals that their preferences for international order are not as divergent as today's conventional wisdom suggests The book therefore concludes that U.S. policies that treat China as a threat to international order are misplaced and offers policy recommendations for how the United States can both preserve the post war order and protect its vital national interests The

book will be of interest to foreign policy practitioners commentators and analysts as well as students and scholars of security studies international relations and geopolitics

500 Events That Shaped the History of Money Alexander Paris-Callahan, 2025-08-12

A New History of Money From early barter economies to Roman coinage to hedge funds and Bitcoin financial systems have been evolving for thousands of years The story of money offers a window into the rise of civilization and the complexities of human psychology 500 Events that Shaped the History of Money provides a new way to understand this fascinating story Organized into 500 key events it offers a sweeping global look at money s evolution across different societies The book explores How taxation and early banking arose in the world s first states of Mesopotamia The emergence of coinage banking and lending across the Classical world How the Netherlands led the way in creating public companies and the first stock market The recurring bubbles and financial panics of early capitalism The birth of central banks and government regulation of financial markets The revolution in personal finance including the rise of credit cards which changed people s relationship to money How the growing financialization of modern economies created new systemic risks leading to the 2008 financial crisis and other crises The ongoing evolution of money with the rise of cryptocurrencies mobile banking and other innovations that blend tech and finance The history of money is intertwined with the history of humanity itself Money s evolution has been shaped by key technological and social developments and in some cases money drove such developments This book brings alive one of the most dominant forces creating the world as we know it
