Made Easy Series is developed with an objective of meeting the requirement of books that cover syllabi of important core engineering subjects focussing completely on the manner in which concepts will be tested in examinations. Books in this series are designed in a question and answer format to cater to undergraduate students of all major technological universities and to equip them with the desired knowledge in a simple yet comprehensive manner. They explore all the important concepts of the syllabi with the help of solved questions and numerical problems of previous years question papers of these universities. Apart from being extremely student friendly and lucid, the books in this series are rich in pedagogical features such as brief point wise discussion of fundamental concepts, theoretical questions with answers, solved numerical problems and objective questions and exercises for further practice, all taken from previous years question papers that aid students in preparing well for university examinations. Because of the fiercely competitive nature of the current academic scenario and the large number of books available for each topic, it is extremely difficult for students to spend too much time in an in depth study of each book especially during examinations when they are hard pressed for time. Made Easy Series will empower students to prepare for university examinations in a systematic and thorough manner in a limited amount of time. The syllabi of the following universities have been covered in the book: UPTU, Anna Univ, JNTU, VTU, RTU, RGTU, WBUT, BPUT, PTU, Pune Univ, Mumbai Univ.
