with a consideration of the novel at the fin de siècle examining *Dracula* *The Awakening* and *Heart of Darkness* These fascinating essays illuminate the ways in which the conventions of realism were disrupted as much by anxieties surrounding colonialism decadence degeneration and the New Woman as by those new ideas about human psychology which heralded the advent of psychoanalysis The concepts which are crucial to the understanding of the literature and society of the nineteenth century are brilliantly explained and discussed in this essential volume

A Critical History of Psychology Thomas Hardy Leahey, 2025-05-27 This fully updated and refreshed 9th edition places social economic and political forces of change alongside psychology's internal theoretical and empirical arguments It utilizes a critical lens to illuminate the way in which the external world has shaped the development of psychology and in turn how psychology from antiquity to modernity has shaped society The text approaches the material from an integrative rather than wholly linear perspective carefully examining how issues in psychology reflect and affect concepts that lie outside the field of psychology's technical concerns as a science and profession Key features of this edition include A newly reconsidered structure including five additional interludes exploring historical background narratives and the rise of modernity to allow for flexible and adaptable textbook use Expanded exploration of the two psychologies the Way of Ideas driven by epistemology and unique to Europe and The Way of Human Nature a universal concern to find a science of human behavior and its management Including scientific applied and professional psychology as well as coverage of the social sciences and social policy implications this book is appropriate for high level undergraduate and graduate students

Modern Language Studies, 2004 *The Classic Novel* Erica Sheen, Robert Giddings, 2000 This book critically examines the long established tradition of adapting classic novels to film or TV screen An emerging area of interest the relationship between film and literature and the way cinema and television have translated classic novels into moving pictures from the 30s to the 90s A wide ranging but focused collection that is bang up to date and free of media jargon that looks at both the film and the book Includes discussion of *The English Patient* *Pride and Prejudice* and *Middlemarch* *Pickwick Papers* *Dracula* *Dickens* *Conrad* *Hardy* and *Waugh*

Science Fiction Studies, 1999 **Dracula in the Dark** James Craig Holte, 1997-05-12 One hundred years after his creation by Bram Stoker *Dracula* is still fascinating us This study traces the changing nature of film representations of *Dracula* from the early silent adaptations to recent popular dramas Holte suggests that vampire films and *Dracula* adaptations have become an independent genre the dark romance with its own set of narrative conventions and audience expectations combining horror and eroticism This engaging study provides readers with a natural history of the vampire an examination of the work of Bram Stoker a history and analysis of many film adaptations of *Dracula* a survey of contemporary
