Sugarman,2022-12-01 Freud always regarded *The Interpretation of Dreams* and in particular its thesis that dreams fulfill wishes as his landmark contribution and the scaffolding of his subsequent work Susan Sugarman after carefully examining the text and scrutinizing a range of Freud's other works shows that the dreams book is not and cannot be that scaffolding For not only does his argument on dreams falter but his reasoning elsewhere in his case histories his accounts of phenomena of ordinary waking life and even his avowedly speculative writing displays a strength and precision his account of dreams lacks She concludes by exploring what is then left of the dreams theory and Freud's overall vision of the mind **Dreams**

The Early Muslim Tradition of Dream Interpretation John C. Lamoreaux,2002-05-02 Reportedly the prophet Muhammad told his followers that after he was gone prophecy would come only through true dreams Based on this and other statements

early Muslims created what might be called a theology of dreams. Dreams were regarded as an important means used by God to guide the faithful especially after the cessation of Koranic revelation. However since these dreams were often symbolic they required interpretation and early Muslims wrote numerous manuals dedicated to deciphering their meaning. Utilizing manuscripts preserved in Middle Eastern mosques and libraries this book offers the first comprehensive account of the early Muslim tradition of dream interpretation. In addition to describing how and when the tradition developed author John C Lamoreaux discusses the social context in which dream interpretation arose and its role in the intellectual life of the time. He demonstrates that early Muslims considered dream interpretation a fully orthodox theological discipline one sanctioned both by the Koran and the example of the prophet Muhammad.

[A Byzantine Book on Dream Interpretation](#) Maria V. Mavroudi, 2021-10-25. This volume discusses the so called Oneirocriticon of Achmet, the most important Byzantine work on dream interpretation which was written in Greek in the 10th century and has greatly influenced subsequent dreambooks in Byzantine Greek, Medieval Latin and modern European languages. By comparing the Oneirocriticon with the 2nd century A.D. dreambook of Artemidoros translated into Arabic in the 9th century and five medieval Arabic dreambooks, this study demonstrates that the Oneirocriticon is a Christian Greek adaption of Islamic Arabic material and that the similarities between it and Artemidoros are due to the influence of Artemidoros on the Arabic sources of the Byzantine work. The Oneirocriticon's textual tradition, its language, the identities of its author and patron and its position among other Byzantine translations from Arabic into Greek are also investigated.
