Digital Marketing Technologies Hashem Aghazadeh, Mozhde

Khoshnevis, 2024-04-19 This book argues that digital marketing should benefit from emerging technologies to result in sustainable competitive values for businesses in both the digital and physical worlds. It not only explores digital marketing fundamentals, analysis, strategy, practices, and implementation but also explains the applications and relationships of marketing technologies, markets, with digital marketing as well as offers several real cases of practicing marketing technologies. It carefully describes how modern businesses offer their value propositions both digitally and physically applying emerging technologies, specifically marketing technologies, markets, and how consumers are using these new technologies, particularly artificial intelligence, ChatGPT, OpenAI. It investigates why consumers are so intrigued and interested in digital relationships, interaction, and shopping experiences. It critically examines and argues that digital marketing has become popular among businesses as they are attempting to serve their customers better by taking advantage of using digital marketing technologies, markets.

E-COMMERCE: (FOR B.COM AND BBA COURSES OF GAUHATI AND OTHER UNIVERSITIES) Dr. Kaushik Kishore Phukon, Dr. Raju Subba, 2025-07-23 The emergence of digital technology has revolutionized the way businesses operate, communicate, and deliver value to customers. Among the most profound transformations is the rise of E-Commerce, a dynamic and rapidly evolving field that has reshaped global markets and consumer behavior. This book, titled *E-Commerce*, has been meticulously designed for second semester students aiming to provide them with a comprehensive introduction to the fundamental concepts, technologies, and practices that define electronic commerce today. This course carries a credit of 2 and evaluates students through internal assessment (20 marks) and end-term examination (30 marks), totaling 50 marks. The curriculum is structured to offer a balance of theoretical knowledge and practical understanding across four well-defined units. Unit 1 explores the meaning, nature, advantages, and limitations of transacting online. It delves into the various types of E-Commerce and business models while also introducing students to the role of E-Marketing and Artificial Intelligence in the digital marketplace. Special emphasis is laid on the technological foundations of E-Commerce, such as the World Wide Web and Internet, and the systematic approach required to design, develop, and launch an E-Commerce website. Unit 2 focuses on Security and Encryption, addressing the pressing need for safe digital transactions. It highlights various security threats and breaches that challenge the E-Commerce ecosystem and presents technology solutions like encryption and secure communication channels that are essential for protecting networks, servers, and clients. Unit 3 discusses Online Business Transactions, covering models and methods of e-payments and their applications in sectors like banking, insurance, education, travel, and retail. Real-world examples such as Amazon, Nykaa, Alibaba, and Flipkart are included to help students relate theoretical knowledge to practical industry practices. Unit 4 introduces students to Website Designing with a hands-on approach to HTML tags, text formatting, hyperlinks, lists, images, forms, and cascading style sheets. This unit empowers learners to understand and create basic web pages essential for E-
