

Under new Ofcom protections, broadband providers must:

- 1** Provide more **realistic speed estimates** at the point of sale, which reflect peak times.

- 2** Always provide a **minimum guaranteed speed** at the point of sale.

Did you know that if your speed falls below XMbit/s for a sustained period you may have a right to exit your contract?

- 3** Let customers walk away **penalty-free** if speeds fall below the minimum guaranteed level.

Providers will have one month to improve speed before offering right to exit.

For residential customers the right to exit will apply to phone and TV services bought at the same time as broadband.

- 4** Give you these rights, regardless of their broadband technology.

Redressing Everyday Discrimination Karla Portilla, 2016-04-14 This book examines the harm that everyday discrimination can cause and proposes ways in which it can be redressed Extreme forms of harmful expression such as incitement to hatred have been significantly addressed in law Everyday generalised prejudice negative stereotypes and gross under representation of disadvantaged groups in mainstream media are however widely perceived as normal and their criticism is regularly trivialised In response this book draws on critical and feminist theory in order to forge a theoretical analysis of the harm created through everyday discrimination Arguing that anti discrimination law can and should be extended as a tool to offer protection against the harm inflicted the book goes on to consider both its limits and possibilities for redressing this discriminatory practice

Mediating Faiths Guy Redden, 2016-04-29 Religion is living culture It continues to play a role in shaping political ideologies institutional practices communities of interest ways of life and social identities *Mediating Faiths* brings together scholars working across a range of fields including cultural studies media sociology anthropology cultural theory and religious studies in order to facilitate greater understanding of recent transformations Contributors illustrate how religion continues to be responsive to the very latest social and cultural developments in the environments in which it exists They raise fundamental questions concerning new media and religious expression religious youth cultures the links between spirituality personal development and consumer culture and contemporary intersections of religion identity and politics Together the chapters demonstrate how belief in the superempirical is negotiated relative to secular concerns in the twenty first century

Self-regulation of the press Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee, 2007-07-11 The system of self regulation of the press was constructed in 1991 in the wake of the Calcutt Inquiry 1990 Cm 2135 ISBN 978011213523 This report by the Culture Media and Sport Committee has been prompted by recent events including the conviction of Mr Clive Goodman the royal editor of the News of the World for interception of communications without lawful authority and the press pursuit of Ms Kate Middleton the girlfriend of HRH Prince William where the Committee believes the press did not observe its own code of practice and where editors failed to take care not to use pictures obtained through harassment and persistent pursuit The Committee feels the Press Complaints Commission response was inadequate and could have intervened sooner by issuing a desist notice to editors The Committee views these recent events as a failure on the part of the press to uphold certain standards of being mindful of the rights of individuals in the news particularly the breaching of the Editor s Code of Practice by Mr Goodman The Committee believes there should be a strengthening of the existing system of self regulation and commends in particular steps taken by the Press Complaints Commission to exercise more rigorous controls over the actions and expenditure of reporters The Committee is though severely critical of the journalists employers for making little or no real effort to investigate the detail of their employees transactions as evidenced by the Information Commissioner which showed large numbers of journalists having had dealings

with a private investigator known to have obtained personal data by illegal means The Committee believes a broader investigation maybe in order to examine the issues of press behaviour and the regulatory framework of the industry

Courts, Regulators, and the Scrutiny of Economic Evidence Despoina Mantzari, 2022-09-01 Courts Regulators and the Scrutiny of Economic Evidence presents the first systematic examination of economic regulation and the crucial role of economic evidence in regulatory authorities and courts This book brings together strands of scholarship from law economics and political science to explore two key themes the influence of economic evidence on the discretionary assessments of economic regulators and the limits of judicial review of economic evidence supplemented with comparative examination of both UK and US systems In light of the challenges posed by economic evidence Mantzari argues the appropriate scope of judicial review in the era of regulatory economics and what the optimal institutional response to the pervasiveness of economic evidence in regulation should be Building on comparative institutional analysis this book rejects single factor explanations such as the individual knowledge of judges in favour of a richer set of macro and micro level factors that shape the relationships between courts and regulators Mantzari argues that the recipe for adjudicating economic evidence requires a balance in which a degree of epistemic diversity is introduced in courts and deference is accorded to regulatory agencies on grounds of institutional competency The book combines theoretical doctrinal comparative and empirical analysis and it is written to be accessible to lawyers economists judges regulators policymakers and political scientists **Constitutional & Administrative Law** Hilaire Barnett, 2014-11-27 This highly respected textbook is regularly updated to provide complete coverage of the Public Law syllabus and is accompanied by a range of interactive resources designed to support teaching and learning Mapped to the common course outline it equips students with an understanding of the constitution s past present and future by analysing and illustrating the political and socio historical contexts which have shaped the major rules and principles of public law as well as on going constitutional reform The new 10th edition has been revised and updated to reflect recent developments in the law including the Defamation Act 2013 Crime and Courts Act 2013 and the Justice and Security Act 2013 and has been enhanced to meet the needs of students and lecturers working in today s digital world In addition to the printed textbook users receive access to an enhanced electronic version The interactive eTextbook brings the benefits of digital to the text searching online offline and mobile access interactive exercises and note sharing are just some of the newly integrated features Key features of the interactive electronic textbook One click access to the cases on LexisNexis and the statutes on the government s legislation archive with almost 1 000 embedded hyperlinks in the text The most up date book available with author updates twice a year to key developments in Public law End of chapter interactive exercises which enable students to assess their understanding and progress and diagnose areas of weakness An Interactive timeline that provides instant access to essential context on how the constitution has developed historically and politically to the present day A comprehensive bank of essay questions with outline answers to help students prepare for assessments The

Judicial Review Handbook The

Hon Sir Michael Fordham, 2012-10-31 Writing in the sixth edition of this Handbook author Michael Fordham described his ambition when writing the first edition and indeed all subsequent editions of this book as to read as many judicial review cases as I could and to try to extract classify and present illustrations and statements of principle Behind this aim lay the practitioner's overwhelming need to know and understand the case law Without it as Fordham says much can be achieved in public law through instinct experience and familiarity with general principles which are broad flexible and designed to accord with common sense But with knowledge of the case law comes the vital ability to be able to point to and rely on an authoritative statement of principle and working illustration Knowing the case law is crucial the challenge is to find it This the sixth edition of the Handbook continues the tradition established by earlier editions in rendering the voluminous case law accessible and knowable This Handbook remains an indispensable source of reference and a guide to the case law in judicial review Established as an essential part of the library of any practitioner engaged in public law cases the Judicial Review Handbook offers unrivalled coverage of administrative law including but not confined to the work of the Administrative Court and its procedures Once again completely revised and up dated the sixth edition approximates to a restatement of the law of judicial review organised around 63 legal principles each supported by a comprehensive presentation of the sources and an unequalled selection of reported case quotations It also includes essential procedural rules forms and guidance issued by the Administrative Court As in the previous edition both the Civil Procedure Rules and Human Rights Act 1998 feature prominently as major influences on the shaping of the case law Their impact and the plethora of cases which explore their meaning and application were fully analysed and evaluated in the previous edition but this time around their importance has grown exponentially and is reflected in even greater attention being given to their respective roles Attention is also given to another new development the coming into existence of the Supreme Court Here Michael Fordham casts an experienced eye over the Court's work in the area of judicial review and assesses the early signs from a Court that is expected to be one of the key influences in the development of judicial review in the modern era The author a leading member of the English public law bar has been involved in many of the leading judicial review cases in recent years and is the founding editor of the Judicial Review journal an institution for those who practise public law it has the authority that comes from being compiled by an author of singular distinction Lord Woolf from the Foreword to the Fifth Edition

Television Studies: The Basics Toby Miller, 2009-12-04 Television Studies The Basics is a lively introduction to the study of a powerful medium It examines the major theories and debates surrounding production and reception over the years and considers both the role and future of television Topics covered include broadcasting history and technology institutions and ownership genre and content audiences Complete with global case studies questions for discussion and suggestions for further reading this is an invaluable and engaging resource for those interested in how to study television

The Public Service Broadcasting Culture Susanne Nikoltchev, European Audiovisual Observatory, 2007-01-01 Europe is marked by a great diversity in public

service broadcasting culture which is a result of the different political economic cultural and social realities in different European countries This publication examines the development of public service broadcasting its current raison d'être and its perspectives in the digital media era It also addresses the demands and expectations placed on public service broadcasting how are these demands expressed and how do today's broadcasters meet these demands Fourteen European countries are covered in detail Bulgaria Denmark Finland France Germany Hungary Italy Lithuania Poland Romania Spain Switzerland The Netherlands United Kingdom The countries were chosen to provide an overview of the different regulatory models developed throughout Europe Each contribution describes the foundations of the public service remit the economic and financing model as well as the decision making process In addition it examines the influence of a country's cultural political or social aspects on the selection of the public service broadcasting system and its organisational structures

McNae's Essential Law for Journalists Mark Hanna, Mike Dodd, 2012-03-29 This is a practical guide for journalists and other writers whose job takes them into contact with the law This edition takes account of recent and forthcoming changes in the law as they affect journalists

The Future of High-Cost Credit Jodi Gardner, 2022-07-14 This book proposes a new way of thinking about the controversial and complex challenges associated with the regulation of high cost credit specifically payday lending These products have received significant attention in both the media and political arena The inadequacy of regulatory interventions has created ongoing problems with the provision of high cost credit particularly for consumers with lesser bargaining power and who are already financially vulnerable The book tackles two specific gaps in the existing literature The first involves inadequate analysis of the relevant philosophical concepts around high cost credit which can result in an oversimplification of what are particularly complex issues The second is a lack of engagement in both the market and lived experience of borrowers resulting in limited understanding of those who use these financial products The Future of High Cost Credit explores the theoretical grounding policy initiatives and interdisciplinary perspectives associated with high cost credit making a novel and insightful contribution to the existing literature The problems with debt extend far beyond the legal sphere and the book will therefore be of interest to many other academic disciplines as well as for those working in public policy and the third sector

Television and the Moral Imaginary T. Dant, 2012-08-31 Just how bad is television Drawing on a range of theoretical sources including Husserl Lacan Lefebvre Sartre Schutz and Adam Smith this book takes a phenomenological approach to the small screen to offer an original sociological approach to television and its contribution to moral culture of late modern societies
