ideas for investigating rivers and coasts ecosystems and human geography for a range of locations Each section in this book is in line with the National Curriculum and provides effective and fun ideas for everyday lesson planning and onsite fieldwork as well as for residential trips and the NEA From carrying out microclimate surveys with no equipment to emotional mapping from clone town surveys to river bingo save yourself hours of planning time and find fresh inspiration for this compulsory element of the geography curriculum with these fully formed ideas for every budget and terrain Awarded silver in the Geographical Association Publishing Awards 2025 *Rethinking Photography* Peter Smith, Carolyn Lefley, 2015-09-16

Rethinking Photography is an accessible and illuminating critical introduction to the practice and interpretation of photography today Peter Smith and Carolyn Lefley closely link critical approaches to photographic practices and present a detailed study of differing historical and contemporary perspectives on social and artistic functions of the medium including photography as art documentary forms advertising and personal narratives Richly illustrated full colour images throughout connect key concepts to real world examples It also includes Accessible book chapters on key topics including early photography photography and industrial society the rise of photography theory critical engagement with anti realist trends in the theory and practice of photography photography and language photography education and photography and the creative economy Specific case studies on photographic practices include snapshot and portable box cameras digital and mobile phone cultures and computer generated imagery Critical summaries of current photography theoretical studies in the field displaying how critical theory has been mapped on to working practices of photographers and students In depth profiles of selected key photographers and theorists and studies of their professional practices Assessment of photography as a key area of contemporary aesthetic debate Focused and critical study of the world of working photographers beyond the horizons of the academy *Rethinking Photography* provides readers with an engaging mix of photographic case studies and an accessible exploration of essential theory It is the perfect guide for students of Photography Fine Art Art History and Graphic Design as well as practitioners from any background wishing to understand the place of photography in global societies today

Reading Photographs Richard Salkeld, 2020-09-02 *Reading Photographs* is a clear and inspiring introduction to theories of representation and visual analysis and how they can be applied to photography Introducing the development of photography and different approaches to reading images the book looks at elements such as identity gaze psychoanalysis voyeurism and aesthetics Striking visual examples are used to illustrate the text and engaging case studies delve deeper into issues raised within each chapter with brief activity points to allow the reader to apply relevant theories to their own practice

Making Photographs Mike Simmons, 2021-05-21 This book explores a range of photographic practices including landscape and portraiture still life and abstract and considers techniques such as directorial photography photomontage and camera less photography With case studies and practical exercises the reader is introduced to a structured way of developing creative solutions to the work they want to make fusing personal ideas with knowledge compositional elements and practical

skills The book enables informed choices to be made about the reader's personal growth as a photographer contributing to the creation of original photographic work that is informed, meaningful and relevant. Additional reading and resources on historical and contemporary practices, ideas and techniques are suggested in each chapter to inspire further enquiry and experimentation.

Travel and Representation Garth Lean, Russell Staiff, Emma Waterton, 2017-07-01 Travel and Representation is a timely volume of essays that explores and re-examines the various convergences between literature, art, photography, television, cinema and travel. The essays do so in a way that appreciates the entanglement of representations and travel at a juncture in theoretical work that recognizes the limits of representation, things that lie outside of representation and the continuing power of representation. The emphasis is on the myriad ways travelers, scholars employ representation in their writing, analyses as they re-think the intersections between travelers' fields of representation, imagination, emotions and corporeal experiences in the past, the present and the future.

100 Ideas that Changed Film David Parkinson, 2019-08-06 This inspiring book chronicles the most influential ideas that have shaped film since its inception. Entertaining and intelligent, it provides a concise history as well as being a fascinating resource to dip into. Arranged in a broadly chronological order to show the development of film, the ideas include innovative concepts, technologies, techniques and movements. From the silent era's masterpieces to today's blockbusters and art house movies, these highly illustrated pages are a chance to discover or rediscover films from all around the world.

Between Water and the Night Sky Simone Lazaroo, 2023-02-28 Elspeth is full of inexpressible longings to leave behind her beginnings in a small wheatbelt town and a secret she scarcely comprehends. After migrating from Singapore, Francis just wants to make a life for himself that is not determined by the colour of his skin or the judgement of others. Told by their only child, Eva, this is a novel about falling in love and falling apart, the beautiful, sad story of a shared history that never ends.

Cómo leer una fotografía Richard Salkeld, 2015-11-12 Vivimos en un entorno cada vez más saturado de imágenes que evidencia el papel primordial que la fotografía juega en la comunicación humana. Pero fotografiar el mundo y leerlo a través de la fotografía no es un acto inocuo; influye en la comprensión que tenemos de la realidad y de nosotros mismos. Por ello es preciso comprender cómo y por qué funciona una fotografía y qué significa. Es preciso adentrarse en suma en la teoría de la fotografía. Cómo leer una fotografía es una introducción clara al análisis visual de la fotografía. A través del repaso histórico del desarrollo de la fotografía, Richard Salkeld ofrece una panorámica comprensible y bellamente ilustrada de las reflexiones que han ido surgiendo en torno a las imágenes. Como resultado, el libro proporciona una aproximación amable y accesible a la teoría que encierra la práctica fotográfica contemporánea, convirtiéndose en una guía básica para entender el papel fundamental que la fotografía juega en la sociedad actual y en nuestro entorno más cotidiano.
