Nanobrain Anirban Bandyopadhyay,2020-04-03 Making an artificial brain is not a part of

artificial intelligence It will be a revolutionary journey of mankind exploring a science where one cannot write an equation a material will vibrate like geometric shape and then those shapes will change to make decisions Geometry of silence plays like a musical instrument to mimic a human brain our thoughts imagination everything would be a 3D shape playing as music composing music would be the brain s singular job For a century the Turing machine ruled human civilization it was believed that irrespective of complexity all events add up linearly This book is a thesis to explore the science of decision making where

events are 3D geometric shapes events grow within and above never side by side The book documents inventions and discoveries in neuroscience computer science materials science mathematics and chemistry that explore the possibility of brain or universe as a time crystal The philosophy of Turing the philosophy of membrane based neuroscience and the philosophy of linear sequential thought process are challenged here by considering that a nested time crystal encompasses the entire conscious universe Instead of an algorithm the pattern of maximum free will is generated mathematically and that very pattern is encoded in materials such that its natural vibration integrates random events exactly similar to the way nature does it in every remote corner of our universe Find how an artificial brain avoids any necessity for algorithm or programming using the pattern of free will Backpacker ,2000-03 Backpacker brings the outdoors straight to the reader s doorstep inspiring and enabling them to go more places and enjoy nature more often The authority on active adventure Backpacker is the world s first GPS enabled magazine and the only magazine whose editors personally test the hiking trails camping gear and survival tips they publish Backpacker s Editors Choice Awards an industry honor recognizing design feature and product innovation has become the gold standard against which all other outdoor industry awards are measured
