The Color of Modernity Barbara Weinstein, 2015-04-05 In *The Color of Modernity* Barbara Weinstein focuses on race gender and regionalism in the formation of national identities in Brazil this focus allows her to explore how uneven patterns of economic development are consolidated and understood Organized around two principal episodes the 1932 Constitutionalist Revolution and 1954 s IV Centen rio the quadricentennial of S o Paulo s founding this book shows how both elites and popular sectors in S o Paulo embraced a regional identity that emphasized their European origins and aptitude for modernity and progress attributes that became and remain associated with whiteness This racialized regionalism naturalized and reproduced regional inequalities as S o Paulo became synonymous with prosperity while Brazil s Northeast a region plagued by drought and poverty came to represent backwardness and S o Paulo s racial Other This view of regional difference Weinstein argues led to development policies that exacerbated these inequalities and impeded democratization

Dear Appalachia Emily Satterwhite, 2011-10-01 Much criticism has been directed at negative stereotypes of Appalachia perpetuated by movies television shows and news media Books on the other hand often draw enthusiastic praise for their celebration of the simplicity and authenticity of the Appalachian region *Dear Appalachia* Readers Identity and Popular Fiction since 1878 employs the innovative new strategy of examining fan mail reviews and readers geographic affiliations to understand how readers have imagined the region and what purposes these imagined geographies have served for them As Emily Satterwhite traces the changing visions of Appalachia across the decades from the Gilded Age 1865 1895 to the present she finds that every generation has produced an audience hungry for a romantic version of Appalachia According to Satterwhite best selling fiction has portrayed Appalachia as a distinctive place apart from the mainstream United States has offered cosmopolitan white readers a sense of identity and community and has engendered feelings of national and cultural pride Thanks in part to readers faith in authors as authentic representatives of the regions they write about Satterwhite argues regional fiction often plays a role in creating and affirming regional identity By mapping the geographic locations of fans *Dear Appalachia* demonstrates that mobile white readers in particular including regional elites have idealized Appalachia as rooted static and protected from commercial society in order to reassure themselves that there remains an authentic America untouched by global currents Investigating texts such as John Fox Jr s

The Trail of the Lonesome Pine 1908 Harriette Arnow s The Dollmaker 1954 James Dickey s Deliverance 1970 and Charles Frazier s Cold Mountain 1997 Dear Appalachia moves beyond traditional studies of regional fiction to document the functions of these narratives in the lives of readers revealing not only what people have thought about Appalachia but why **Slavery by Any Other Name** Eric Allina,2012 Ending slavery and creating empire in Africa from the Indelible stain to the light of civilization Law to practice certain excesses of severity The critiques and defenses of modern slavery from without and within above and below Mobility and tactical flight of workers chiefs and villages Targeting chiefs from fictitious obedience to extraordinary political disorder Seniority and subordination disciplining youth and controlling women s labor An absolute freedom circumscribed and circumvented Employers chosen of their own free will Upward mobility improvement of one s social condition Conclusion forced labor s legacy **The Monthly Army List** Great Britain. Mobility Makes States Darshan Vigneswaran, Joel Quirk, 2015-04-22 Human mobility has long played a foundational role in producing state territories resources and hierarchies When people move within and across national boundaries they create both challenges and opportunities In Mobility Makes States chapters written by historians political scientists sociologists and anthropologists explore different patterns of mobility in sub-Saharan Africa and how African states have sought to harness these movements toward their own ends While border control and intercontinental migration policies remain important topics of study Mobility Makes States demonstrates that immigration control is best understood alongside parallel efforts by states in Africa to promote both long distance and everyday movements The contributors challenge the image of a fixed and static state that is concerned only with stopping foreign migrants at its border and show that the politics of mobility takes place across a wide range of locations including colonial hinterlands workplaces camps foreign countries and city streets They examine short term and circular migrations everyday commuting and urban expansion forced migrations emigrations
