

TYPE I

HVAC technicians who handle small appliances, such as window or room air conditioners, refrigerators, freezers and dehumidifiers, need Type I certification from the EPA. This covers recovery requirements, recovery techniques and safety.

TYPE II

If new HVAC techs will service high-pressure air conditioning and/or heating units, they need to be certified with this designation. The test for Type II certification covers additional issues related to high- and very-high-pressure appliances, including leak detection, leak repair requirements and refrigeration.

TYPE III

These certifications are necessary for HVAC techs who work with low-pressure refrigerants, commonly found in chiller units. The Type III certification exam also asks for knowledge regarding leak detection, leak repair requirements, recovery techniques, recovery requirements, recharging techniques, refrigeration, and safety.

UNIVERSAL

This exam covers low, high and very high-pressure appliances, as well as small appliances. This certification includes Type I, II and III.
