A Sociology of Commercial Flight Crew Bennett Simon, 2016-12-05 There are numerous psychological studies of pilots and piloting but little has been done in the way of sociological examination Commercial aviation is one of the world's biggest industries yet there are few studies of pilots as social beings and of their place of work the flight deck Developing a sociological understanding of front line staff and of pilots working environments is an important step to developing a more detailed understanding of this increasingly important sector This book performs such a function and also adds to our understanding of pilots in general from those who work for flag carriers to those who fly for regional or corporate jet operators The readership includes the general public industry legislators regulators managements employees trainers journalists academics and students of sociology psychology organisation theory and business management

Federal Register, 2013 *A Philosophy of Technology* Pieter E. Vermaas, 2011 In A Philosophy of Technology From Technical Artefacts to Sociotechnical Systems technology is analysed from a series of different perspectives The analysis starts by focussing on the most tangible products of technology called technical artefacts and then builds step wise towards considering those artefacts within their context of use and ultimately as embedded in encompassing sociotechnical systems that also include humans as operators and social rules like legislation Philosophical characterisations are given of technical artefacts their context of use and of sociotechnical systems Analyses are presented of how technical artefacts are designed in engineering and what types of technological knowledge is involved in engineering And the issue is considered how engineers and others can or cannot influence the development of technology

These characterisations are complemented by ethical analyses of the moral status of technical artefacts and the possibilities and impossibilities for engineers to influence this status when designing artefacts and the sociotechnical systems in which artefacts are embedded The running example in the book is aviation where aeroplanes are examples of technical artefacts and the world aviation system is an example of a sociotechnical system Issues related to the design of quiet aeroplane engines and the causes of aviation accidents are analysed for illustrating the moral status of designing and the role of engineers therein Table of Contents Technical Artefacts Technical Designing Ethics and Designing Technological Knowledge Sociotechnical Systems The Role of Social Factors in Technological Development Ethics and Unintended Consequences of Technology *Airbus Industrie A300 Flight Crew Operating Manual* Airbus Industrie,1979 **HCI International 2020 - Late Breaking Papers: Cognition, Learning and Games** Constantine Stephanidis,Don Harris,Wen-Chin Li,Dylan D.
