Pure Human Gregg Braden, 2025-01-28 In an age where technologies such as AI threaten to supplant human intelligence an award winning scientist offers a radical new view of our innate human technology and what we are truly capable of There are rare moments in time when we make choices that irreversibly change the world and our lives forever Today is one of those moments Scientists engineers and philosophers alike warn us that without a radical shift in our thinking we are on track to be the last generation of pure humans that the world will know Within a single generation we will devolve into a hybrid species of synthetic bodies Artificial Intelligence AI and computer chips that limit our ability to think to love and to adapt to the conditions of the emerging world in a healthy way In doing so we will also lose our capacity for emotion empathy intimacy and forgiveness the very qualities that we value and cherish in our humanness The question that we face is simple Do we love ourselves enough to preserve the gift of our humanness Our answer is based upon the way we have been taught to think of ourselves This book is a compelling journey of self discovery that will catapult you beyond conventional thinking when it comes to your origins your limits and most importantly the abilities that have been hidden from you for centuries and the extraordinary potential that awaits as you embrace them **Fractal Time** Gregg

Braden, 2009-03-15 In this compelling exploration of life Gregg Braden merges the modern discoveries of nature's patterns fractals with the ancient view of a cyclic universe The result is a powerful model of time fractal time and a realistic window into what we can expect for the mysterious year 2012 and beyond Applying fractal time to the history of the world and life he proposes that everything from the war and peace between nations to the patterns of human relationships mirror the returning cycles of our past As each cycle repeats it carries a more powerful amplified version of itself The key If you know where to look in the past you know what to expect when the same conditions return in the present and future For the first time in print the Time Code Calculator gives you the tool to do just that Through easy to understand science and step by step instructions discover for yourself How the conditions for 2012 have occurred in the past and what we can expect when they repeat The hot dates that hold the greatest threats of war and greatest opportunities for peace as well as economic cycles such as the stockmarket collapse of 2008 How Earth's location in space triggers cycles of spiritual growth for humans Your personal Time Codes for the key events of business relationships and change in your life How each cycle carries a window of opportunity a choice point that allows us to select a new outcome for the returning pattern What the 1999 ice cores from Antarctica reveal about past cycles of climate global warming Earth's protective magnetic fields and what these things mean for us today **The Divine Matrix** Gregg Braden, 2010 THE DIVINE MATRIX Are the miracles that we see in the quantum world actually showing us our greatest possibilities rather than our scientific limits Could the spontaneous healing of disease an instant connection with everyone and everything and even time travel be our true heritage in the universe There is a place where all things begin the place of pure energy that simply is In this quantum incubator for reality everything is possible In

1944 Max Planck the father of quantum theory shocked the world by saying that this matrix is where the birth of stars the DNA of life and everything between originates Recent discoveries reveal dramatic evidence that Planck s matrix The Divine Matrix is real It is this missing link in our understanding that provides the container for the universe the bridge between our imagination and our reality and the mirror in our world for what we create in our beliefs To unleash the power of this matrix in our lives we must understand how it works and speak the language that it recognizes For more than 20 years Gregg Braden a former senior aerospace computer systems designer has searched for the understanding to do just that From the remote monasteries of Egypt Peru and Tibet to the forgotten texts that were edited by the early Christian church the secret of the Divine Matrix was left in the coded language of our most cherished traditions It is verified in today s science In this paradigm shattering book Gregg shares what he s found Through 20 keys of conscious creation we re shown how to translate the miracles of our imagination into what is real in our lives With easy to understand science and real life stories Gregg shows us that we re limited only by our beliefs and what we once believed is about to change Deep Truth Gregg Braden,2011-10-15 Deep Truth reveals new discoveries that change the way we think about everything from our personal relationships to civilization itself When the facts become clear our choices become obvious THE CRISIS Best selling author and visionary scientist Gregg Braden suggests that the hottest topics that divide us as families cultures and nations seemingly disparate issues such as war terrorism abortion genocide poverty economic collapse climate change and nuclear threats are actually related They all stem from a worldview based upon the false assumptions of an incomplete science THE HISTORY The obsolete beliefs of our modern worldview have brought us to the brink of disaster and the loss of all that we cherish as a civilization Our reluctance to accept new discoveries about our relationship to the earth one another and our ancient past keeps us locked into the thinking that has led to the crises threatening our lives today THE FACTS The scientific method allows for and expects new information to be revealed and assimilated into our existing beliefs It s the updating of scientific knowledge with the new facts from new discoveries that is the key to keeping science honest current and meaningful To continue teaching science that is not supported by the new discoveries ones based upon accepted scientific methods is not in fact scientific But this is precisely what we see happening in traditional textbooks classrooms and the media today THE OPPORTUNITY Explore for yourself the discoveries that change 150 years of scientific beliefs yet are still not reflected in mainstream thinking including evidence of advanced near ice age civilizations the origin of and reasons for war in our ancient past and why it may become obsolete in our time and the false assumptions of human evolution and of the Darwinian theory Let the strongest live and the weakest die and how this plays out in corporations societies and warfare today Heart Quantum Leap Petra Ross,2025-02-11 Everyone carries within them the longing to be happy and to make a difference in life This is how human beings are by nature for they are a part of this great creation and represent the pinnacle of what God has created But most people live isolated lives removed from the great divine system and are no longer aware of

their power The author uses her life story to inspire readers to experience the power of their own hearts which can in the truest sense of the word move the world She also shows us how we can easily become a helper of good everywhere through the language of our hearts and the acceptance and transmission of divine powers She finds these experiences confirmed by the latest scientific findings in quantum physics which she explains in a clear and understandable way The author shows people and the world ways to new quantum leaps This book is an updated translation from the German 5th edition 2022

Quantum Science Robson Rodovalho, 2020-07-22 This book teaches how to think about science in a unified fashion and its connection with spirituality Bishop Robson Rodovalho shows how faith and the intangible intermingle and complement each other to become one thing in the end Based on the poetic premise Nature makes no miracles it makes revelations of Carlos Drummond de Andrade and Rodovalho reveals in this book that besides the chemical connection with the Earth and with the atomic universe we have a connection with God the complete the supernatural **Entanglement** Gregg Braden, Lynn Lauber, 2012-06-19 Entanglement the new novel based on the teachings of New York Times best selling author Gregg Braden explores the exciting world of quantum physics through the experiences of twin brothers Charlie and Jack Franklin have always experienced life differently than your average brothers As children each was able to sense when the other was in danger when the other was sad or when the other was happy However as adults these two brothers took different paths Jack stayed in their hometown to practice his art and Charlie joined the army only to be deployed to Afghanistan After a frightening vision jolts Jack into consciousness he begins his quest to get in touch with Charlie Along the way he encounters his high school physics teacher who helps him understand the connection the brothers have and the larger universal oneness of which we are all a part Light on the path to spiritual perfection - Book VI Ray del Sole, 2010-05-02 For the genuine spiritual seeker Collection of universal spiritual topics techniques questions answers in seven books derived from more than 16 years of spiritual practice Book VI table of contents The principle of darkness Mastership Love as self defense Quabbalistic formulas and numbers Secret societies Spiritual brotherhood Introspection soul mirrors Sleepers Karma and Incarnation Healing Psychology JHVH Symbols Psychology Mental perfection Healing techniques Astral body building Clearing technique Quabbalistic wisdom Negative beings And much more *0.0.0.0 Would Our Legacy Survive?* Richard Graupner, 2012-07-28 The exploration takes us into the realms of a global catastrophe and its aftermath Through the eyes of a now older woman we explore her journey through the many challenges tough decisions and attacks on mans moral and ethical fibre in the battle for survival in the aftermath It provokes us to explore many questions not least of which is how we ourselves might react If we were to be honest with ourselves the answers may be startling indeed Woven within this journey through time are references to aspects of life today and how in the eyes of someone in the aftermath these appear shallow and inconsequential The alternative viewpoints proposed working with wisdom seemingly lost to us in our current frenetic cluttered lifestyles will assist us in improving our free thinking evaluation of life today We

explore too how the ancient civilizations and their knowledge simply vanished providing some insight into this phenomenon Could this also occur with the global civilization we have currently Surely not you might say It appears however that we may be a far more fragile species than we would like to believe with sadly a potentially very thin veneer of modern humanitarian practices

A critical review about "The Divine Matrix" by Gregg Braden Felix Ale, 2015-02-09 Literature Review from the year 2014 in the subject American Studies Literature grade A Atlantic International University course PhD JOURNALISM language English abstract Gregg Braden s book *The Divine Matrix* that seeks to justify and offer meaning to the origin of both the tangible and intangible things of the universe offers one of the most elusive and divisive evidence The origin of the web of energy in the universe has for many years been a bone of contention between the church and science From the time of Galileo to the modern times marked with technological advancements to carry out research humanity has failed spectacularly to comprehensively and neutrally define their origin and everything around them

Living with Spirit Peggy Kornegger, 2009 Many spiritual memoirs walk through a house closing doors and windows until the author settles comfortably into one room whereas *Living with Spirit* opens door after door and window after window letting in all different kinds of light Alice Peck author of *Bread Body Spirit* I m honored that Peggy has shared my teachings and in such a good way in this book Her writing is graceful flowing and easy to read and understand Brooke Medicine Eagle author of *Buffalo Woman Comes Singing* Have you ever wondered what really happened to the flower children and activists of the 1960s The popular media would have us believe that they all outgrew their alternative lifestyle and became stockbrokers Not true *Living with Spirit* Journey of a Flower Child describes an ongoing wave of transformation and spiritual awakening that has continued to grow exponentially to the present

day as we approach the prophesied year 2012 Peggy Kornegger's journey from flower child to feminist activist to spiritual seeker has given her a unique perspective on this phenomenon Her experiences swimming with wild dolphins and whales in the ocean traveling to sacred sites such as Tulum and Machu Picchu and studying with Maya elders in Guatemala have all contributed to her metamorphosis Living with spirit is the thread that runs throughout the book how she has experienced it and how everyone can Peggy Kornegger is a writer editor and lightworker who lives in the Boston area Her writing has appeared in a wide variety of spiritual feminist and political publications including Spirit of Change Bay Windows Sojourner Second Wave Sinister Wisdom Plexus and the anthology Reinventing Anarchy Cover art Infinity c 2003 by Anne S Katzeff Cover design Anne S Katzeff Back cover photo of Peggy with dolphin Lisa Denning Ocean Eyes Photography RAISING RACE CONSCIOUSNESS Audrye S. Arbe, 2019-04-30 What propelled me to write this book In addition to being nudged by Spirit and my own Inner Guidance I took a look around What is this fixation on race sex gender religion class that preoccupies so many of our species Where is our plentiful joy and wonder at the magnificence of Creation More importantly what can we do about any lack of wonder Who are we anyway and why are we here Personally I am fascinated by the diversity and combinations in which we humans flourish with our multitude of talents looks and abilities I love our creativity our amazingly diverse yet similar energies and vibrations To me this variety is something to be honored and treasured a reflection of the artistry and abundance of Creation Despite the beauty that exists within diversity racial sexual gender and so on some of us appear to feel believe and act as if our variety is an issue going so far as to behave inimically toward others who outwardly look or seem different From where do these attitudes stem and where do these perceptions lead Is separation along color sex gender religious lines what anyone truly desires in the core of his or her being It is indicative of a culture with distorted ideas about race that people can even figure out what looking alike and looking different mean How are these differences of coloration interpreted In a culture that loved our multiplicity of being we would have a different conception of alike and different as well as different feelings and vibrations within ourselves We are in a new millennium We have the time space place resonance to be the enlightened beings that we are The choice is open to each and every one of us **Secrets of the Lost Mode of Prayer** Gregg Braden, 2016-07-26 Could our deepest hurts reveal the key to a powerful form of prayer that was lost 17 centuries ago What can we learn today from the great secret of our most cherished traditions There are beautiful and wild forces within us With these words the mystic St Francis described what ancient traditions believed was the most powerful force in the universe the power of prayer For more than 20 years Gregg Braden has searched for evidence of a forgotten form of prayer that was lost to the West following the biblical edits of the early Christian Church In the 1990s he found and documented this form of prayer still being used in the remote monasteries of central Tibet He also found it practiced in sacred rites throughout the high deserts of the American Southwest In this book Braden describes this ancient form of prayer that has no words or outward expressions Then for the first time in print he leads us on a journey exploring

what our most intimate experiences tell us about our deepest beliefs Through case histories and personal accounts Braden explores the wisdom of these timeless secrets and the power that awaits each of us just beyond our deepest hurt **You Are God** John Lawrence,2020-04-14 This book is based on the true story of the first seven months of the authors lives together though some names and details have been changed to protect the identities of individuals Although perhaps seemingly contrary to the book s title the authors in no way aim to diminish the concept or existence of a one true God It is their hope that though they had both lived separate and extremely different lives before crossing paths this story will be able to illustrate the divine beauty and wonder of the intricacies of their individual life events as seen through a collective lens Like threads woven to complete a fabric circumstances have brought them together in serendipitous ways to shine a light on each of their individual strengths and weaknesses Each journey regardless of one s race religion social or economic status can lead an individual to a deeper understanding and regard for life nature and most of all other human beings It is this journey toward enlightenment which we as the human race can no longer afford to procrastinate The time to awaken is now

Hunter,2012-02-01 From daily activities such as work and eating to milestones such as graduation and marriage this discussion debates the myths that guide lifestyles and questions why they exist in the first place Each belief is broken down and examined in terms of how it works exposing its true nature so that its value and necessity in culture as well as the way it operates can be determined This unique self help guide demonstrates how to reinvent old outdated rituals get rid of those rites that are entirely ineffective and create new habits that provide a deeper meaning to everyday life A gateway to finding a better understanding of what contributes to healthier relationships this guide to rituals paves the way to sustaining a fulfilling and happy life **The Divine Matrix by Gregg Braden. A Critical Book Analysis** Jean Cédric Obame Emame,2018-09-10 Seminar paper from the year 2016 in the subject Literature Modern Literature grade A Atlantic International University course SEMINAR PERSONAL DEVELOPMENT I language English abstract In his book Braden is referring to the universal field of energy that the father of quantum physics Max Planck a German theoretical physicist whose work on quantum theory won him the Nobel Prize in Physics in 1918 describes as a field that connects everything He calls that field of energy the Divine Matrix Now what is the Divine Matrix According to the author the Matrix is a universal energy that affects our reality he uses quantum physics to explain it Braden 2007 p 52 mentioned that the Divine Matrix is everywhere at all time and that it is also the mind of the universe Besides the following book s review will help us understand how the Matrix works in our everyday life Equally important before the reading of this book I would experience the kind of things that I somewhat thought to be the unique person on this planet to ever experience

Most importantly I was incapable of explaining them It is true that I would as well question people around me if they ever experienced some of them The answer was yes But for the other experiences I did not even dare to ask someone else The very purpose of this dissertation is to discuss some of the topics Braden tackles in his book Because he talks about many themes nevertheless I have selected those I thought to actually be highly relevant Accordingly I will discuss four subjects the connection which exists between everything within the Matrix the origins of the universe is also another discussion of my dissertation In addition to that I shall debate bilocation and the power of imagination On the latter Braden 2007 p 55 talks about the bridge between imagination and reality Why do I term it as power of imagination Because the author even if he does not use the expression power conversely demonstrates that imagination in fact has a power By utilizing the term bridge he means imagination is not far from reality given that as human beings and being part of the Divine Matrix we ourselves can create our own reality The four above issues will be discussed in details
