American Arwrology The Science Of All Out Hand To Hand Fighting:

American Arwrology Fred C Bauer, 2013-04-08 In 1943 the classic book Arwrology All Out Hand To Hand Fighting by Gordon E Perrigard M D was published Although one of many books of it s time to put forward a method of close combat for use against the Axis powers Arwrology was a unique system in its own right The book itself was destined to become a rare classic because of its content and the limited number of original copies printed That status was ensured when in 1946 officials deemed it too violent for the general public and subsequently banned its sale In 2001 after several years of study and training in Arwrology GHCA Founder and Instructor Bob Kasper was granted permission by the Canadian Society of Arwrologists CSA to found the American Society of Arwrologists and given the title 1st Regent ASA Soon afterwards Bob selected seven loyal instructors he had personally trained and together they tested the principles and techniques developed by Dr Perrigard culminating with the Arwrology system being fully adopted by the GHCA into their curriculum Shortly before his untimely death in 2006 Bob Kasper formally passed the ASA and Arwrology system over to one of the seven original instructors Fred C Bauer who was also granted the title 2nd Regent ASA As part of his passion to keep the Arwrology system alive Fred Bauer has compiled this instructional volume on Arwrology in his capacity as 2nd Regent making it the first official new publication on the subject since the 1943 original CQB Publications is proud to make available this volume of the Doc s unique fighting system from WW2 giving a glimpse as to how it is being taught today within the ASA and GHCA It is a worthy addition to any WW2 Combatives Martial Arts library

Arwrology Gordon E Perrigard, 2019-04-23 Arwrology is derived from the old Welsh word arwr meaning an all out hand to hand fighter It was developed by Gordon E Perrigard a Canadian medical doctor who combined his knowledge of advanced ju jitsu with his knowledge of human anatomy to come up with this devastatingly effective close in combat system Arwrology was originally released in 1943 in Canada for use in training combatants for World War II Martialists from all over the world quickly hailed its superior fighting methods and today it remains one of the most highly sought after and most valuable fighting manuals in the world Don t miss your chance to add this authentic reproduction of an extremely rare combat classic to your library at a price you can afford

Arwrology Gordon E Perrigard, M D, 2020-11-03 Gordon E Perrigard was a Canadian medical doctor who combined his knowledge of advanced ju jitsu with his knowledge of human anatomy to come up with this devastatingly effective close in combat system Arwrology is derived from the old Welsh word arwr meaning an all out hand to hand fighter Arwrology was originally released in 1943 for use in training combatants for World War II Martial artists from all over the world quickly hailed its superior fighting methods and today it remains one of the most highly sought after and most valuable fighting manuals in the world Arwrology is distinctive because it uses a single system of conditioned reflexes based on general body movement for both armed and unarmed fighting If one method

fails to subdue an attacker a practitioner can effortlessly flow to another technique without exposing his body to attack Through clear instructions photos and illustrations Arwrology shows you how to Defeat someone armed with a firearm knife dagger or club Use knowledge to overcome brute strength Fall without injury and rise up without using your hands Get out of strangleholds grips and other holds Train to develop fast reflexes and important fighting muscle Arwrology Gordon E. Perrigard, 2022-11-03 Arwrology is derived from the old Welsh word arwr meaning an all out hand to hand fighter Arwrology was originally released in 1943 for use in training combatants for World War II Martial artists from all over the world quickly hailed its superior fighting methods and today it remains one of the most highly sought after and most valuable fighting manuals in the world Arwrology is distinctive because it uses a single system of conditioned reflexes based on general body movement for both armed and unarmed fighting If one method fails to subdue an attacker a practitioner can effortlessly flow to another technique without exposing his body to attack Through clear instructions photos and illustrations Arwrology shows you how to Defeat someone armed with a firearm knife dagger or club Use knowledge to overcome brute strength Fall without injury and rise up without using your hands Get out of strangleholds grips and other holds Train to develop fast reflexes and important fighting muscles *Arwrology* Gordon Eric Perrigard, 1943 *The Seven Strategies of Hand to Hand Combat* Ernest Emerson, 2015-04-08 This is not a book about techniques Black Belt Hall of Famer and Tier One tactical instructor Ernest Emerson opens the doors to the previously hidden Strategies Tactics and Mentality of the world's deadliest warriors giving you the tools to upgrade your training in any system into a truly effective program of combat ready skills Emerson's genius is in being able to break down human conflict combat into its most basic component parts and then explain them in terms that make perfect sense Then in turn he gives you the ability to train and supercharge those components individually so that when they are reassembled the result is an Abrams tank powered by jet engines But if you're looking for a book on how to block a punch you won't find it here This is about giving you the means to create a supercharged capability to take what you already know to the elite level ready for actual combat The difference between tier one operators and the rest of us is not that they know more techniques or possess secret skills They know the same things as we do They just know how to do them much better Emerson takes you into his classroom to teach you the real secrets the forbidden knowledge of the warrior elite America's Special Operations and Black Ops Units The problem with training for real world hand to hand combat skills is that almost all martial arts are over 200 years removed from actual combat and have been softened up or sporterized to be palatable to the general public The difference between conventional training and combatives training is defined by two simple words intent and intensity Each needs the other to be maximally effective and conventional martial arts lack both Without truly knowing if something will actually work in live combat how can an instructor teach combat skills to someone whose life may depend on those skills If you are ever in a situation where you're face to face with pure evil and you're not both physically and mentally prepared for violent deadly combat then that is the day you will likely die The author

shows that you must be able to bring violence of action against the bad guy to such a degree that it doesn't just counter his attack but destroys him for attempting to do you harm You will learn how to evaluate your current training against the criteria of the perfect technique to judge everything you do as to whether it will work in real combat or not and avoid wasting your valuable time doing things that are of no value Learning and applying principles and concepts outlined in this book will give you the confidence you need to never again wonder Will this really work or Can I do this You will learn that the true mastery of fighting skills is not just based on confidence in the techniques but ultimately in the confidence you have in yourself Some of the subjects covered in detail include 1 The principles strategies and tactics of combat 2 The physical physiological and psychological effects of combat on the human body and how to use them to your advantage 3 The 3 Laws of Combat and the 6 Instinctual Triggers 4 The high art of preemptive self defense 5 The importance of being able to distinguish between capability and capacity Combative fighting skills is not a martial art It is hard intense painful training along with the development of the Warrior Mindset Without that mindset and the iron will to win you are only using half of your power The other half is in the mind You will learn how important it is to never neglect one for the other Ernest Emerson has worked with members of the Naval Special Warfare Community Navy SEALs for over 25 years He carried a DOD top secret clearance for 15 years He is the owner of Emerson Knives Inc and the Black Shamrock Combat Academy in Los Angeles California
