Garga Samhita:

The Quarterly Journal of the Mythic Society (Bangalore, India). Mythic Society (Bangalore, India),1916 **Loving Stones** David L. Haberman,2020-03-18 Loving Stones is a study of devotees conceptions of and worshipful interactions with Mount Govardhan a sacred mountain located in the Braj region of north central India that has for centuries been considered an embodied form of Krishna **The Journal of the Bihar Research Society** Bihar Research Society,1915 **Hindu Astrology** Anthony P Stone,2024-04-08 An authoritative classic on Hindu astrology this book has been out of print for decades and was originally published only in hardback Now it will be published in paperback for the professional astrologer and for the general public alike Analyzing various models for the origin development and functioning of yugas manvantaras karma and Hindu astrology as a whole this book raises questions also about the role of the supernatural and synchronicity The epilogue includes the author s reflections on astrology as a whole religion and science *The Quarterly Journal of the Mythic Society (Bangalore)*. Mythic Society (Bangalore, India),1922 **Journal** ,1915 Sanaatana Dharma Quiz Book S.R. Subramanya,2023-12-21 This is a Quiz Book containing over 1 000 questions and answers related to various aspects of Sanaatana Hindu Dharma For children includes grown ups with curiosity who have had some introduction although of varying degrees to the essentials of Sanaatana Hindu Dharma may use this as review self assessment This book may be used as a source of fun filled and productive quiz activity within a family among friends between teachers of Sunday culture classes and students *Journal of the Bihar and Orissa Research Society* ,1928 **Śiva's Brainchild** Brian Capleton,2024-02-22 Hinduism is ancient Considered as one religion it is the oldest religion on Earth Modern scientific understanding in contrast is relatively very recent It is only in this very recent mode of understanding that we have come to understand the basic material structure of the human brain is that of a supremely complex network We don t find anything in the Hindu corpus that refers to this or to the modern scientific fact that our experience of self and world as human beings is a construct of the functioning of this supremely complex network And yet Hinduism itself contains expressed through a cultural fabric the representation of a supreme understanding through which the most fundamental fact of modern brain science comes into focus The point of Hinduism like that of any of the great religions is the discovery of God whether as Brahman or Krishna and not merely the provision of entertaining stories about our origins With this in mind this book contains a steep but fast shortcut into the core content behind the cultural fabric in such a way that is compatible with Western inquiry whilst giving full due regard to the profound and spiritual nature of the corpus It is all too easy to regard the pantheon of Hinduism as proof of its estrangement and disconnection from a religion such as Christianity which amongst the religions predominates in the West But such a judgement would be to overlook the one thing that all cultures and all religions have in common and on which they depend for their expression in the first place Which is none other than human brain function In these pages the deeper content of the Hindu corpus and the single most fundamental fact of modern neuroscience
