

The book cover features a colorful, stylized illustration. The top half shows a fortified city with red brick walls and a central arched gateway. A figure in a white turban and orange robe stands in the archway. The background includes green hills and a small pink-roofed building. The bottom half of the cover is a dense, abstract collage of various elements, including a large white swan, a blue bird, a yellow bird, and a small figure in a blue robe. The entire cover is framed by a thin brown border.

Recovery from Armed Conflict in Developing Countries Geoff Harris, 2002-02-07 This comprehensive work examines ways in which developing countries may achieve economic political and social reconstruction in the wake of armed conflict International researchers discuss such issues as women and children in the recovery process refugees and the role of aid the reintegration of ex combatants and community led recovery Case studies focus upon Afghanistan Angola Cambodia Mozambique South Africa and Sri Lanka

The Assyrian Genocide Hannibal Travis, 2017-07-20 For a brief period the attention of the international community has focused once again on the plight of religious minorities in Iraq Syria and Turkey In particular the abductions and massacres of Yezidis and Assyrians in the Sinjar Mosul Nineveh Plains Baghdad and Hasakah regions in 2007 2015 raised questions about the prevention of genocide This book while principally analyzing the Assyrian genocide of 1914 1925 and its implications for the culture and politics of the region also raises broader questions concerning the future of religious diversity in the Middle East It gathers and analyzes the findings of a broad spectrum of historical and scholarly works on Christian identities in the Middle East genocide studies international law and the politics of the late Ottoman Empire as well as the politics of the Ottomans British and Russian rivals for power in western Asia and the eastern Mediterranean basin A key question the book raises is whether the fate of the Assyrians maps onto any of the concepts used within international law and diplomatic history to study genocide and group violence In this light the Assyrian genocide stands out as being several times larger in both absolute terms and relative to the size of the affected group than the Srebrenica genocide which is recognized by Turkey as well as by international tribunals and organizations Including its Armenian and Greek victims the Ottoman Christian Genocide rivals the Rwandan Bengali and Biafran genocides The book also aims to explore the impact of the genocide period of 1914 1925 on the development or partial unraveling of Assyrian group cohesion including aspirations to autonomy in the Assyrian areas of northern Iraq northwestern Iran and southeastern Turkey Scholars from around the world have collaborated to approach these research questions by reference to diplomatic and political archives international legal materials memoirs and literary works
