Leading Marines in a Digital World Naval Postgraduate School,2014-08-19 Leadership and communication are essential for winning wars Email is a reality and is good for some things however there is no substitute for F2F interaction when it comes to building relationships Relationships are a reality in any organization but they are more important in an organization like the Marines where lives are on the line Senior leaders should establish mutually trusting relationships with junior leaders before deploying to a combat zone when it may be too late Even in the best relationships and under the influence of a great leader conflict will occur Some conflict is healthy but too much can be detrimental to unity Marine leaders would do well to implement a comprehensive conflict management strategy in order to maintain unit cohesion and create a safe environment for junior Marines to express their concerns and opinions Servant leadership is a comprehensive leadership model that encompasses all necessary attributes for fostering trusting relationships and managing conflict and therefore is the most appropriate model for the Marines Empowering servant leaders in the Marine Corps will help the Marines enhance their organizational culture and allow them to continue to focus on executing their primary mission protecting our nation s interest at home and abroad

Pride and Discipline Colonel Donald J. Myers USMC (Ret), 2014-05 Marine Boot Camp has been described in many books and movies over the years and in many cases not favorably The author is especially qualified to write about this subject because he went through a Boot Camp at Parris Island in 1953 and returned as the commanding officer of the Recruit Training Regiment in 1982 after spending a significant amount of time leading Marines as an officer and noncommissioned officer The author goes into great detail explaining his theory about why abuse occurs He also describes the quality of the drill instructors and their background The author places the reader in the environment by telling stories about what is actually happening throughout the training cycle He explains why more supervision or regulations will not eliminate abuse but only by changing attitudes will that happen His style of working with the drill instructors and junior officers takes the reader through the events A totally new approach of stress management was implemented with superb results Experts in conditioning and psychology were used in an effort to improve the production of basic Marines and reports from the operating forces supported the end results The author spent most of his time out of the

office observing training and speaking with recruits and drill instructors Many of the changes that occurred were suggested by the drill instructors during these informal talks Some of the changes that did occur are listed near the end of the book Many of them remain in effect today while others have been overcome by time

The Chesty Puller Paragon: Leadership Dogma Or Model Doctrine? Major Mickey L. Quintrall USAF, 2015-11-06 In this study I examine whether or not the United States Marine Corps senior warrior leaders should continue to use heroic warriors from the 1942-52 era as contemporary paragons of tactical leadership Additionally I compare the Marine tactical leadership models between 1942-52 and their relevance within the cultivated and refocused leadership doctrine of today's Marine Corps Then I examine whether or not there is a gap created using an earlier era's tactical leadership example to model contemporary tactical battlefield leadership The Marine Corps tactical leadership criteria and what the Corps expected of its commanders during World War II and the Korean War is the starting point There was not much written leadership guidance then but there was accepted leadership doctrine nonetheless Today several United States Marines are recognized as setting the contemporary paragon for the ideal tactical battlefield leader Among them is World War II and Korean War Marine Lewis

Chesty Burwell Puller Chesty Puller not only set a courageous combat example he trained his men hard respected his men's fearlessness and worked hard to build unit comradeship Service parochialism and cultural turmoil through the Vietnam War set the stage for a rocky period in the history of the Corps leading up to the Commandant's re focus on a new Marine followership leadership ethos The Marine Corps recent efforts to Transform their Marines into a new breed is an attempt to transform leadership dogma to leadership followership doctrine His fresh approach is thought to better inculcate the Marine culture with loyalty and commitment to the Corps similar to what was experienced within World War II Marine Corps The thrust of the monograph pursues the question Does Chesty Puller provide the right contemporary leadership example or does he perpetuate dogma **Marine Corps Doctrinal Publication Mcdp 1 Warfighting 20 June 1997** Us Marine
