All That Lies Within:

The Secret Lies Within Anne Beiler, Emily Sutherland, 2019-06-04 The Secret Lies Within in an inside out look at the trauma and pain so many people experience in this lifetime and how breaking the silence is the first step to freedom Many people experience trauma or pain and keep it to themselves letting it become a secret that holds them captive They live with pain blame and shame unsure of what to do or how to break free The secrets grow causing people to become increasingly silent while they hope and pray for better days struggling to believe they will ever come The Secret Lies Within is an honest vulnerable and courageous narrative about nearly losing everything breaking the silence of secrets and finding purpose in pain Auntie Anne Beiler founder of the international franchise Auntie Anne's pretzels shares her journey through the loss of a child sexual abuse and the resulting trauma that haunted her for years reminding readers they are not alone in their pain Anne weaves brief stories of other brave individuals throughout her own and presents a picture of hope for those who have experienced trauma Those with deep secrets of their own are encouraged to break their silence and are shown the power to overcome through confession and reach a whole new level of freedom **The Answers Lie Within Us** Alistair

Sinclair, 2017-07-05 This book suggests that religion in its usual sense can be replaced by something better that the human spirit or subjectivity can be the subject of scientific study and that lack of purpose or design in the universe is not a handicap but a positive opportunity for intelligent beings to make of the universe and its contents what they reasonably can The book breaks new ground in suggesting a radical alternative to religion It offers a scientific and humanist alternative to religion which appeals to people's critical faculties rather than emotions or intuitions It also challenges current views of causation and the principle of sufficient reason by stressing the subjectivity of our reasoning powers and clarifying these in relation to an independent external reality It develops and elaborates a notion of the noosphere within a theoretical system this enables the notion to assume a scientific importance which it currently lacks because it is treated as an isolated eccentric and rather mystical idea *The Rare Jewel of Christian Contentment, Etc.
