David Pearson, 1989 **Quantitative Business**

Methods Using Excel David Whigham, 1998 This text provides a comprehensive introduction to quantitative methods for business students The text employs Excel 5 0 as a tool to assist the student to understand and use quantitative methods to solve business problems Designed to be read in front of the computer screen this book introduces the student to topics in Quantitative Methods Each chapter contains an illustrated set of exercises and solutions summarising the topics covered and

the book is accompanied by a disk containing further exercises and examples referred to in the text. The book therefore presents the reader with a far more lively active and hands on approach to learning than that of a standard textbook. The text commences with an introduction to the functions, commands and routines contained in the Excel 5.0 spreadsheet. These are explained in the context of everyday business problems. Thereafter these Excel techniques are applied to the topics that constitute undergraduate Quantitative Methods modules: algebraic modelling, financial mathematics, organisational methods, descriptive statistics, inferential statistics and regression. Throughout the discussion the distinction between quantitative theory and Excel techniques is marked in the text. Computer instructions are highlighted throughout. This provides a fast track route for those readers who are familiar with quantitative methods but not with how to apply them on Excel. The book is tailored towards a readership of 1st or 2nd year students of Quantitative Methods or maths and statistics on Business Management and Accountancy courses. It would also be appropriate for use on MBA management or accountancy diploma courses.
