Conversations After Sex and Trade Mark O'Halloran, 2023-02-06 Multiple award winning Mark O'Halloran is one of Ireland's most celebrated writers. Two plays spanning 12 years of work come together in one published edition to coincide with the New York premiere in January 2023. **CONVERSATIONS AFTER SEX** You remind me of someone though I mean you're not like him. Not physically like him. Nowhere near. But there's something there. Your voice or how you hold yourself. Your hands. In a series of unexpected and unguarded conversations after anonymous sexual encounters, a woman discovered men with the same deep need to communicate and connect in the lonely atomised city. A portrayal of grief that is unforgettable in its rawness. *The Guardian*. **TRADE** This is just this. It isn't real. It's money. In a guesthouse in Dublin's north inner city, a vulnerable and confused young rent boy sits with a middle-aged client. It's not the first time they've met, but today the older man has blood on his shirt. A lot has happened since they last met. It closes around your heart like a fist. *The Irish Times*.

Business World, 2004-05 *Exploring the Links Between International Business and Poverty Reduction* Jason W. Clay, 2005 Foreign direct investment is recognized to be important for economic development in terms of wealth creation, employment, skills development and technology transfer. But there is an ongoing debate about the extent to which these contributions translate into real benefits for people living in poverty. In an attempt to evaluate the impacts of international business on people living in poverty, two organizations with very different aims and perspectives—Unilever, a major company operating in some of the poorest countries in the world, and Oxfam, an international development and humanitarian organization—collaborated on an ambitious research project. The research considered the impacts of Unilever Indonesia across the entire business value chain from producers and suppliers through the company's core business operations to its distributors, retailers and consumers. This report presents the findings of the research. It is a contribution to the debates among the wider business community, governments, civil society organizations and academics who seek to understand how the wealth, employment and products that a large company creates could bring increased benefits to people living in poverty.
