Enabling Consumer and Entrepreneurial Literacy in Subsistence Marketplaces Madhubalan Viswanathan,S.

Gajendiran,R. Venkatesan,2008-06-01 This book is the result of several years of research curriculum development and testing of a consumer and entrepreneurial literacy educational program for illiterate low income adults in India Whereas there has been considerable attention on micro financing in recent decades we describe an educational program that focuses on enabling generic skills about the marketplace and complements these important efforts We conducted research aimed at understanding lives and marketplaces in subsistence contexts in urban and rural parts of a state in South India We used the research as a basis for developing a consumer and entrepreneurial literacy educational program This program uses the knowledge or an understanding of marketplaces as a basis for the knowledge of being an informed buyer or seller Despite the difficulties with abstract thinking that low literate individuals experience we enable deeper understanding of marketplaces by leveraging the social skills that participants bring to the program and relating educational content back to their lived experiences Such understanding can enable individuals to embark on a path to lifelong learning A detailed explanation of the evolution of this work follows

The Business Plan

Gerald Schwetje,Sam Vaseghi,2007-08-24 In starting a new enterprise one must be able to both plan and realize their initial goal This book provides the budding entrepreneur with the essentials needed to draw up and execute a successful business plan The implementation of the many methods presented in this title have been exercised for years both in practice and in real world management consulting situations By laying out a straightforward blueprint for the reader this title's pragmatic emphasis and autodidactic approach allows for easy absorption of the necessary skills and tools required for the planning and development of a new business venture Each section of the book closes with a set of key questions thusly providing a roadmap for building a successful business from the planning stage to successful marketing to finding investors It is with this book's method that the reader is able to weigh the real risks associated with business formation

After reading this landmark text, students will be armed with the knowledge and tools to succeed in the new market environment around them. "Marketing Management" and "Operations Management" Philip Kotler, 2003-12-24 a tour de force. The world of the Angevin court is splendidly recreated and Dr Crouch succeeds admirably in explaining the reality of the chivalric ethos. For him, the celebrations after a battle had more in common with the atmosphere in the bar of a rugby club than with that of the enclosures at Henley or the ski slopes of Klosters. Dr Crouch is adept at finding striking modern parallels. History Today: a refreshingly readable book; it makes a contribution to medieval studies quite out of proportion to its size. TLS: Crouch resurrects a lost world in fluent, economic and readable prose, often enlivened by colloquialisms and contemporary parallels. Southern History: Written in a racy, accessible, idiosyncratic style which might have appealed to the Marshal himself, it should be read by everyone interested in medieval people, politics and society. Archives: William Marshal is the one medieval knight who had a contemporary biography written about him. He was THE knight of all knights as far as we are concerned today. He is the only medieval man whose authentic experience of aristocratic military life is preserved for us.
