Mathematical Visualization H.-C. Hege, Konrad Polthier, 1998-10-20 Mathematical Visualization is a young new
discipline It offers efficient visualization tools to the classical subjects of mathematics and applies mathematical techniques
to problems in computer graphics and scientific visualization Originally it started in the interdisciplinary area of differential
geometry numerical mathematics and computer graphics In recent years the methods developed have found important
applications The current volume is the quintessence of an international workshop in September 1997 in Berlin focusing on
recent developments in this emerging area Experts present selected research work on new algorithms for visualization
problems describe the application and experiments in geometry and develop new numerical or computer graphical
