ACM Transactions on Computational Logic, 2010 *Formal Methods for Components and Objects* Frank S. de Boer, Marcello M. Bonsangue, Susanne Graf, Willem-Paul de Roever, 2004-11-08 Formal methods have been applied successfully to the verification of medium sized programs in protocol and hardware design However their application to more complex systems resulting from the object oriented and the more recent component based software engineering paradigms requires further development of specification and verification techniques supporting the concepts of reusability and modifiability This book presents revised tutorial lectures given by invited speakers at the Second International Symposium on Formal Methods for Components and Objects FMCO 2003 held in Leiden The Netherlands in November 2003 The 17 revised lectures by leading researchers present a comprehensive account of the potential of formal methods applied to large and complex software systems such as component based systems and object systems The book makes a unique contribution to bridging the gap
