Byzantium In The Seventh Century The Transformation Of A Culture:

Byzantium in the Seventh Century John F. Haldon, 1990 An analytical account of developments within Byzantine culture society and the state from c 610 to 717 *The Palgrave Atlas of Byzantine History* J. Haldon, 2005-10-14 The dominant Mediterranean power in the fifth and sixth centuries by the time of its demise at the hands of the Ottomans in 1453 the Byzantine empire was a shadow of its former self restricted essentially to the city of Constantinople modern Istanbul Surrounded by foes who posed a constant threat to its very existence it survived because of its administration army and the strength of its culture of which Orthodox Christianity was a key element This historical atlas charts key aspects of the political social and economic history of a medieval empire which bridged the Christian and Islamic worlds from the late Roman period into the late Middle Ages

The Black Sea: Hub of Peoples and Cultures (8th Century BC-5th/6th Century AD) Gocha R. Tsetskhladze, James Hargrave, Manolis Manoledakis, 2025-05-01 Proceedings of the Seventh International Congress on Black Sea Antiquities Thessaloniki 2022 this volume brings together leading scholars from across Europe and beyond to showcase new research on the diverse cultures interactions and archaeological discoveries that shaped the Black Sea region in antiquity *Authority in Byzantine Provincial Society, 950-1100* Leonora Neville, 2004-08-19 The imperial government over the central provinces of the Byzantine Empire was sovereign and at the same time apathetic dealing effectively with a narrow set of objectives chiefly collecting revenue and maintaining imperial sovereignty Outside of these spheres action needed to be solicited from imperial officials leaving vast opportunities for local people to act independently without legal stricture or fear of imperial involvement In the absence of imperial intervention provincial households competed with each other for control over community decisions The emperors exercised just enough strength at the right times to prevent the leaders of important households in the core provinces from becoming rulers themselves Membership in a successful household wealth capacity for effective violence and access to the imperial court were key factors that allowed one to act with authority This book examines in detail the mechanisms provincial households used to acquire and dispute authority

Emperor Leo III the Isaurian Peter Crawford, 2024-12-30 The Roman Empire long since ruled from Constantinople was in a perilous and tumultuous position in the early eighth century Surrounded by expansionist enemies most notably the Muslim Arab Umayyad Caliphate but also the Khazars Slavs Avars Bulgars and Lombards it was also riven by religious controversy and internal political instability When a plot brought Leo III to the throne in 717 he was the fourth Emperor since Justinian II s assassination six years earlier Within weeks of his accession he was faced with the year long siege of his capital by the Arabs The siege was eventually broken with the help of the secret weapon Greek fire but was only the first of many crises Leo faced in his twenty four year reign His tenure saw a number of rebellions and Peter Crawford considers how Leo dealt with these and the extent to which his own policies caused them Space is given to the great religious development of his reign the initiation of Iconoclasm its impact on the empire and its tainting of the

reputation of Leo and much of his dynasty He also considers various aspects of Leo's administration coinage provincial infrastructure civil law and foreign policy This is a thorough and fascinating reassessment of a ruler who brought the Empire from the brink of extinction and maintained it through a time of real crisis

Law, Power, and Imperial Ideology in the Iconoclast Era, C.680-850 M. T. G. Humphreys, 2015 Law was central to the ancient Roman conception of themselves and their empire Yet what happened to Roman law and the position it occupied ideologically during the turbulent years of the Iconoclast era c 680-850 is seldom explored and little understood This volume uses Roman law and canon law to chart the various responses to these changing times especially the rise of Islam from Justinian II's Christocentric monarchy to the Old Testament inspired Isauriandynasty and the transformation from the late antique Roman Empire to medieval Byzantium

Cultures of Eschatology Veronika Wieser, Vincent Eltschinger, Johann Heiss, 2020-07-20 In all religions in the medieval West as in the East ideas about the past the present and the future were shaped by expectations related to the End The volumes Cultures of Eschatology explore the many ways apocalyptic thought and visions of the end intersected with the development of pre-modern religious political communities with social changes and with the emergence of new intellectual and literary traditions The two volumes present a wide variety of case studies from the early Christian communities of Antiquity through the times of the Islamic invasion and the Crusades and up to modern receptions from the Latin West to the Byzantine Empire from South Yemen to the Hidden Lands of Tibetan Buddhism Examining apocalypticism messianism and eschatology in medieval Christian Islamic Hindu and Buddhist communities the contributions paint a multi-faceted picture of End Time scenarios and provide their readers with a broad array of source material from different historical contexts The first volume Empires and Scriptural Authorities examines the formation of literary and visual apocalyptic traditions and the role they played as vehicles for defining a community's religious and political enemies The second volume Time Death and Afterlife focuses on key topics of eschatology death judgment afterlife and the perception of time and its end It also analyses modern readings and interpretations of eschatological concepts

Changing Cultures in Early Byzantium Averil Cameron, 1996 In these essays the author's aim has been to build a framework for understanding the many changes that took place in the societies of the Eastern Mediterranean in the period either side of the Arab conquests In Constantinople itself in North Africa and in the eastern provinces the culture of late antiquity continued to flourish and develop Hellenism remained a vital factor in Syria Palestine and Egypt while the Byzantine reconquest of the 6th century brought Greek and eastern influences to North Africa Several papers show also how these developments continued in the 7th century and how the ideas then established in the East provide the context for later Byzantine iconoclasm

Justinian II Peter Crawford, 2021-10-13 An exceptional well-written exhaustively researched and detailed biography of the controversial Roman emperor from the author of Constantius II Midwest Book Review Justinian II became Roman emperor at a time when the Empire was beset by external enemies His forces gained success against the Arabs and Bulgars but his religious and social policies fueled internal

opposition which resulted in him being deposed and mutilated his nose was cut off in 695 After a decade in exile during which he strangled two would be assassins with his bare hands he regained power through a coup d etat with the backing of the erstwhile Bulgar enemy an alliance sealed by the marriage of his daughter Anastasia His second reign was seemingly harsher and again beset by both external and internal threats and dissension over doctrinal matters An energetic and active ruler his reign saw developments in various areas including numismatics administration finance and architecture but he was deposed a second time in 711 and beheaded Drawing on all the available evidence and the most recent research Peter Crawford makes a long overdue re assessment of Justinian s colorful but troubled career and asks if he fully deserves his poor reputation

Byzantium in the Iconoclast Era (ca.680-850) Leslie Brubaker,John F. Haldon,Robert G. Ousterhout,2001 Iconoclasm the debate about the legitimacy of religious art that began in Byzantium around 730 and continued for nearly 120 years has long held a firm grip on the historical imagination Byzantium in the Iconoclast Era is the first book in English to survey the original sources crucial for a modern understanding of this most elusive and fascinating period in medieval history It is also the first book in any language to cover both the written and the visual evidence from this period a combination of particular importance to the iconoclasm debate The authors an art historian and a historian who both specialise in the period have worked together to provide a comprehensive overview of the visual and the written materials that together help clarify the complex issues of iconoclasm in Byzantium

Seventh-century Popes and Martyrs Bronwen Neil,2006 This is the 2nd volume in the series *Studia Antiqua Australiensia* produced within the Ancient History Documentation Research Centre Macquarie University This collection of Latin texts published in a new edition with an English translation draws on the rich hagiographical corpus of Anastasius papal diplomat secretary and translator in late ninth century Rome The texts concern two controversial figures Pope Martin I 649 653 whose opposition to the imperially sponsored doctrines of monoenergism and monothelitism saw him exiled to Cherson where he died in 655 and Maximus the Confessor an Eastern monk condemned to suffer amputation and exile to Lazica for similar reasons in 662 The author seeks to place these works in their political context namely the growing hostility between the eastern and western churches in the late ninth century and to assess Anastasius s contribution to the deteriorating relations between the two through his translations of hagiography

The Worlds of Medieval Europe Clifford R. Backman,2009 Deftly written and beautifully illustrated *The Worlds of Medieval Europe* Second Edition presents a distinctive and nuanced portrayal of a western world that was sharply divided between its northern and southern aspects By integrating the histories of the Islamic and Byzantine worlds into the main narrative author Clifford R Backman offers an insightful detailed and often witty look at the continuum of interaction social cultural intellectual and commercial that existed among all three societies Filled with relevant primary documents this compelling volume surpasses traditional textbook representations of the Middle Ages by balancing the conventional focus on political affairs especially those of northern Europe with equally detailed attention to medieval society as it developed in the Mediterranean In addition Backman describes the ways in which the medieval Latin West attempted to understand the

unified and rational structure of the human cosmos which they believed existed beneath the observable diversity and disorder of the world This effort to re create a human ordering of unity through diversity provides an essential key to understanding medieval Europe and the ways in which it regarded and reacted to the worlds around it Thoroughly updated and redesigned the second edition features an inviting and accessible layout and integrates captivating new illustrations nearly twice as many as in the previous edition to stimulate students engagement with the material Moreover it offers a sophisticated analysis of gender along with an intriguing examination of the tumultuous relationship between the Mediterranean and Islam An invaluable resource for both students and instructors The Worlds of Medieval Europe Second Edition is ideal for undergraduate courses in medieval history Western civilization the history of Christianity and Muslim Christian relations It also serves as an excellent supplement on the history of a specific country in the medieval period the history of medieval art or the history of the European economy *Sophronius of Jerusalem and Seventh-Century Heresy* Saint Sophronius (Patriarch of Jerusalem), Pauline Allen, 2009-01-22 Sophronius Synodical Letter was read out at the Sixth Ecumenical Council in 680 1 and provided the only sustained rebuttal of the monoenergist doctrine This is the first publication of the letter in annotated translation alongside the original Greek Includes a comprehensive introduction and further documents on the monoenergist doctrine **Byzantinische Forschungen** ,1966 Internationale Zeitschrift f r Byzantinistik
