The Guide for the Integration of ICT in the Foreign Language Classroom intends to be an easy instrument for a general overview of the means, tools and possibilities that Information and Communication Technologies (ICT) offer to teachers of foreign languages. The use of ICTs in the foreign language classroom affects the aspects of teaching planning, methodological orientation, materials, sequencing, activities, monitoring and evaluation. This guide is not a step by step manual for the use of particular computer programs or technologies since there are plenty of such manuals for each specific software. What we offer is a general overview of the possibilities open to teachers of foreign languages focusing only on those applications that might be useful and suggesting actions or providing orientation for their integration in the classroom. The guide is supported by a website including practical examples which can be used as a first real contact with new technologies already developed, materials and the instruments used to create them.

ASTROPHIL Y STELLA HERNÁNDEZ MONTANO, SONIA, SIR PHILIP SIDNEY, 2018-11-13

Astrophil y Stella es la primera secuencia de sonetos escrita en inglés a la manera italianista. Su autor Philip Sidney (1554-1586) ha sido considerado como el pionero en Inglaterra en la utilización de formas métricas, estilo poético y tópicos propios del Renacimiento literario iniciado en Italia y encabezado por Petrarca. En esta obra se ha realizado una edición revisada del poemario mediante el estudio de manuscritos y ediciones tempranas que queda reflejado en el aparato crítico. Este ofrece al lector la posibilidad de indagar en diferentes interpretaciones según la aceptación de una u otra versión del texto. Se presenta también una traducción al castellano y un comentario filológico del poemario verso a verso que analiza significados, figuras retóricas y connotaciones semánticas y proporciona al lector interpretaciones de cada uno de los sonetos.
