

The background of the cover is an abstract, artistic representation of light. It features a dense field of out-of-focus light spots, known as bokeh, in various colors including red, orange, yellow, green, and blue. These spots are of different sizes and are scattered across the entire frame. Overlaid on this bokeh are numerous thin, elongated streaks of light, some appearing as sharp lines and others as softer, blurred trails. The overall effect is one of dynamic energy and optical phenomena, which is thematically appropriate for a book about optoelectronics and photonics. The text is centered and uses a combination of white and gold colors for high contrast against the dark and colorful background.
