Many new features make this edition a richer and stronger learning resource for students. Several factors motivated the authors to write this book. After having the experience in the legal field and teaching for more than 10 years, it became clear that there was a definite need for more detailed materials in this area. In addition, there was a need for a book which would give full recognition to an easier method, and the authors felt it was time for a text which would develop the ideas and methods with this in mind. This book covers a thorough discussion of the development of law in Malaysia, especially criminal and constitutional law matters. A major audience for the book will be students studying the law subjects. The order of topics, however, provides a degree of flexibility so that the book can be of interest to different readers, through basic concepts until the advanced concepts, i.e. the discussion of the cases. The purpose of this book is to take the readers on an introduction to Malaysian Criminal and Constitutional Law by which the meaning of such subject at a basic level is better understood.
