Italy Diane Ghirardo, 2013-02-15 Packed in its dense historic city centers Italy holds some of the most prized architecture and art in the world with which planners and politicians have had to negotiate as they struggle to cope with massive migration from the countryside to the city Early modern architecture coincided with a sustained drive to transform a country that was still primarily rural into a modern industrial state and throughout the twentieth century architects in Italy have attempted to define the role of architecture within a capitalist economy and under diverse political systems In *Italy Modern Architectures in History* Diane Yvonne Ghirardo addresses these and other issues in her analysis of the last century of Italy's building practices Specifically she examines the post unification efforts to identify a distinctly Italian architectural language as well as the transformation of the urban environment in Italian cities undergoing industrialization in the late nineteenth and early twentieth centuries She challenges received interpretations of modern architecture and also looks at the subject of illegal building and current responses to ecological challenges In order to illuminate the full scope of the building industry in Italy her examples are drawn not only from the work of widely published architects in the largest cities but from throughout the peninsula including small towns and rural areas Insightful reading for those interested in Italian culture this book offers a new way of understanding the architectural history of modern Italy

The Mussolini Canal Antonio Pennacchi, 2013 The Mussolini

Canal is one of the great achievements of contemporary Italian fiction. It spans 100 years of Italian history as seen through the lives of the Peruzzi family who are among the 30 000 peasants from Northern Italy sent down to farm the newly drained Pontine Marshes outside Rome in the 1930s. Mussolini is revered by the Peruzzi family who must reconcile their admiration for Il Duce with the failings of Fascism which slowly envelop them. Contemporary events permeate the book and the hardship and misery of earlier periods are seen against the background of modern prosperity. It won the Strega prize in 2010 in Italy and has sold over 400 000 copies in Italy.
