History in a Post-Truth World Marius Gudonis, Benjamin T. Jones, 2020-10-06 History in a Post Truth World Theory and Praxis explores one of the most significant paradigm shifts in public discourse A post truth environment that appeals primarily to emotion elevates personal belief and devalues expert opinion has important implications far beyond Brexit or the election of Donald Trump and has a profound impact on how history is produced and consumed Post truth history is not merely a synonym for lies This book argues that indifference to historicity by both the purveyor and the recipient contempt for expert opinion that contradicts it and ideological motivation are its key characteristics Taking a multidisciplinary approach this work explores some of the following questions What exactly is post truth history Does it represent a new phenomenon Does the historian have a special role to play in preserving public memory from alternative facts Do academics more generally have an obligation to combat fake news and fake history both in universities and on social media How has a post truth culture impacted professional and popular historical discourse Looking at theoretical dimensions and case studies from around the world this book explores the violent potential of post truth history and calls on readers to resist **Future of the Prophetic** Marc H. Ellis, 2014 Explores contemporary Jewish identity by examining Jewish history the founding of Israel Jews in America the Holocaust and Jewish Palestinian relations and by examining the role of the prophetic Denying History Michael Shermer, Alex Grobman, 2002-05-03 Examines Holocaust denial as a classic case study in how the past may be revised for present political and ideological purposes and includes refutation of the Holocaust deniers claims and arguments analyses of their personalities and motives and evidence that the Holocaust did indeed occur **Anti/Vax** Bernice L. Hausman, 2019-04-15 Antivaxxers are crazy That is the perception we all gain from the media the internet celebrities and beyond writes Bernice Hausman in Anti Vax but we need to open our eyes and ears so that we can all have a better conversation about vaccine skepticism and its implications Hausman argues that the heated debate about vaccinations and whether to get them or not is most often fueled by accusations and vilifications rather than careful attention to the real concerns of many Americans She wants to set the record straight about vaccine skepticism and show how the issues and ideas that motivate it like suspicion of pharmaceutical companies or the belief that some illness is necessary to good health are commonplace in our society Through Anti Vax Hausman wants to engage public health officials the media and each of us in a public dialogue about the relation of individual bodily autonomy to the state s responsibility to safeguard citizens health We need to know more about the position of each side in this important stand off so that public decisions are made through understanding rather than stereotyped perceptions of scientifically illiterate antivaxxers or faceless bureaucrats Hausman reveals that vaccine skepticism is in part a critique of medicalization and a warning about the dangers of modern medicine rather than a glib and gullible reaction to scaremongering and misunderstanding **Holocaust Denial** Robert S.

The ^AFreedom to Be Racist? Erik Bleich,2011-09-05 In this wide ranging book Erik Bleich explores policies that the US Britain France Germany and other liberal democracies have implemented when forced to choose between preserving freedom and combating racism Bleich s comparative historical approach reveals that while most countries have increased restrictions on racist speech groups and actions since the end of World War II this trend has resembled a slow creep more than a slippery slope Building on these observations Bleich argues that we should pay close attention to the specific context and to the likely effects of any policy we implement and that any response should be proportionate to the level of harm the racism inflicts

Quill & Quire ,2000 **Choice** ,2001 Fail Carlo Mattogno,2016-10-24 Skeptic Magazine editor Michael Shermer and Alex Grobman from the Simon Wiesenthal Center tried to answer all the claims of the Holocaust deniers But it s a grand feint they ignored the vast amount of scholarly studies by revisionists and committed falsifications contortions omissions and fallacious interpretations of the evidence **Bungled: Denying History: How Michael Shermer and Alex Grobman Botched Their Attempt to Refute Those Who Say the Holocaust Neve** Carolus Magnus,2017 Skeptic Magazine editor Michael Shermer and Alex Grobman from the Simon Wiesenthal Center wrote a book in 2000 which they claim is a thorough and thoughtful answer to all the claims of the Holocaust deniers In 2009 a new updated edition appeared with the same ambitious goal In the meantime revisionists had published some 10 000 pages of archival and forensic research results Would their updated edition indeed answer all the revisionist claims Unfortunately it s yet another grand feint and the present study proves it In fact Shermer and Grobman completely ignored the vast amount of recent scholarly studies published by revisionists In their book they primarily piled up an enormous heap of falsifications contortions omissions and fallacious interpretations of the evidence Finally what the authors claim to have demolished is not historical revisionism but a ridiculous parody of it They also massacred their own methodic rulebook by ignoring the known unreliability of their cherry picked selection of evidence utilizing unverified and incestuous sources and obscuring the massive body of research and all the evidence that dooms their project to failure F for FAIL
