Marketing Modernism in Fin-de-siècle Europe Robert Jensen, 1994 In describing the canon building of modern dealerships Jensen considers the new ideological dealer and explores the commercial construction of artistic identity through such rhetorical concepts as temperament and independent art and through such institutional structures as the retrospective

"Marketing Art in the British Isles, 1700 to the Present" Charlotte Gould, 2017-07-05 A cultural history of the first truly modern art market *Marketing Art in the British Isles 1700 to the Present* furthers the burgeoning exploration of Britain's struggle to carve a niche for itself on the international art scene Bringing together scholars from the UK US Europe and Asia this collection sheds new light on such crucial notions as the internationalization of the art market the emergence of an increasingly complex exhibition culture issues of national rivalry and emulation artists individual and collective strategies for their own promotion and survival the persistent anti commercialism of an elite group of art lovers and critics and accusations of philistinism levelled at the middle classes as well as an unquestionable native British genius at reconciling jarring discourses Essays explore the unresolved tension between artistic aspirations and commercial interest a tension that has come to shape Britain's national artistic tradition from the perspectives of artists dealers and super collectors and the upwardly mobile middle classes whose consumerism gave rise to the British art market as it is known today Specific case studies include Whistler Roger Fry Damien Hirst and Charles Saatchi essays consider art markets from London and Manchester to Paris and Flanders

Pioneers of the Global Art Market Christel H. Force, 2020-11-26 By the turn of the twentieth century Paris was the capital of the art world While this is usually understood to mean that Paris was the center of art production and trading this book examines a phenomenon that has received little attention thus far Paris based dealers relied on an ever expanding international network of peers Many of the city's galleries capitalized on foreign collectors interest by expanding globally and proactively cultivating transnational alliances If the French capital drew artists from around the world from Cassatt to Picasso the contemporary art market was international in scope Art dealers deliberately tapped into a growing pool of discerning collectors in northern and eastern Europe the UK and the USA International trade was rendered not just desirable but necessary by the devastating effects of wars revolutions currency devaluation and market crashes which stalled collecting in Europe *Pioneers of the Global Art Market* assembles original scholarship based on a close inspection of and fresh perspective on extant dealer records It caters to an amplified curiosity concerning the emergence and workings of our unprecedented contemporary centric and global art market This anthology fills a significant gap in the expanding field of art market studies by addressing how initially contemporary art which is now known as historical modernism made its way into collections who validated what by promoting and selling it where and how It includes unpublished material concrete examples bibliographical and archival references and should appeal to academics curators educators dealers collectors artists and art lovers alike It celebrates the modern art dealer as transnational impresario the

global reach of the modern art market and the impact of traders on the history of collecting and ultimately on the history of art

Foreign Currency Volatility and the Market for French Modernist Art David Challis, 2021-08-04 *Foreign Currency Volatility and the Market for French Modernist Art* examines how the collapse of the French franc in the decades following the First World War activated powerful push and pull economic forces that compelled French art collectors to monetise their collections while simultaneously elevating the purchasing power of international art collectors These factors are shown to have played a significant and previously under recognised role in the large scale translocation of French modernist art that radically accelerated its commercial and critical reception across the globe and positioned it at the apex of the newly established hierarchy of modern art

A History of the Western Art Market Titia Hulst, 2017-09-19 This is the first sourcebook to trace the emergence and evolution of art markets in the Western economy framing them within the larger narrative of the ascendancy of capitalist markets Selected writings from across academic disciplines present compelling evidence of art's inherent commercial dimension and show how artists dealers and collectors have interacted over time from the city states of Quattrocento Italy to the high stakes markets of postmillennial New York and Beijing This approach casts a startling new light on the traditional concerns of art history and aesthetics revealing much that is provocative profound and occasionally even comic This volume's unique historical perspective makes it appropriate for use in college courses and postgraduate and professional programs as well as for professionals working in art related environments such as museums galleries and auction houses

Academics, Pompiers, Official Artists and the Arrière-garde Natalie Adamson, Toby Norris, 2020-06-12 *Academics Pompiers Official Artists and the Arrière-garde* Defining Modern and Traditional in France 1900-1960 is a collection of eight essays and a scholarly introduction by established and emerging scholars that challenges the continuing modernist slant of twentieth century art history The intention is not to perpetuate the vulgar opposition between avant garde and reactionary art that characterized early twentieth century discourse and has marked much subsequent historical writing but rather to investigate the complex relationship that both innovative and conservative artists had to the concept of tradition How did artists and art critics conceive of tradition in relation to modernity What was the role of an artist's institutional positioning in determining expectations for his or her art What light is thrown on the structure of the French art world by considering artists from abroad who worked in Paris How did the war alter modernist and avant garde paradigms and force crucial changes upon art production in the postwar period to 1960 Particular attention is paid to the terms academic pompier official and arrière-garde originally used to situate the more conservative artists and works as second rate or as the negative foil to the assumed radicalism of the avant garde By re-evaluating the work of artists pushed to the historical margins by such polemical descriptors and by proposing alternative understandings of the aesthetic economic institutional and political factors that drive our ideas of avant gardism and the modernist narrative in France this collection of essays offers new routes to explore the terrain of twentieth century art in France

Jules Flandrin,

1871-1947 Juliet Simpson, Jules Léon Flandrin, Georges Flandrin, 2001 The French fin de siècle artist Jules Flandrin was a pupil of Gustave Moreau one of the most prominent figures in the mid to late 19th century art world His studio was a meeting place for some of the most influential avant garde artists of the 20th century Matisse Albert Marquet and Georges Rouault artists who shaped our ideas of modern art Flandrin was a major force amongst these innovators Widely shown in the French capital in the first years of the new century on the eve of World War I he was hailed as a torchbearer of l art vivant

Bibliographic Guide to Art and Architecture New York Public Library. Art and Architecture Division, 1995 *A Cubism Reader* Mark Antliff, Patricia Dee Leighton, 2008 This definitive anthology covers the historical genesis of cubism from 1906 to 1914 with documents that range from manifestos and poetry to exhibition prefaces and reviews to articles that address the cultural political and philosophical issues related to the movement Most of the texts Mark Antliff and Patricia Leighton have selected are from French sources but their inclusion of carefully culled German English Czech Italian and Spanish documents speaks to the international reach of cubist art and ideas Equally wide ranging are the writers represented a group that includes Guillaume Apollinaire Gertrude Stein Jean Metzinger Albert Gleizes Fernand Léger Francis Picabia André Salmon Raymond Duchamp Villon Henri Le Fauconnier and many others Publisher description **Masterworks from Stuttgart** Elizabeth P.
