Artificial Intelligence and the Future of Defense Stephan De Spiegeleire,Matthijs Maas,Tim Sweijs,2017-05-17 Artificial intelligence AI is on everybody s minds these days Most of the world s leading companies are making massive investments in it Governments are scrambling to catch up Every single one of us who uses Google Search or any of the new digital assistants on our smartphones has witnessed first hand how quickly these developments now go Many analysts foresee truly disruptive changes in education employment health knowledge generation mobility etc But what will AI mean for defense and security In a new study HCSS offers a unique perspective on this question Most studies to date quickly jump from AI to autonomous mostly weapon systems They anticipate future armed forces that mostly resemble today s armed forces engaging in fairly similar types of activities with a still primarily industrial kinetic capability bundle that would increasingly be AI augmented The authors of this study argue that AI may have a far more transformational impact on defense and security whereby new incarnations of armed force start doing different things in novel ways The report sketches a much broader option space within which defense and security organizations DSOs may wish to invest in successive generations of AI technologies It suggests that some of the most promising investment opportunities to start generating the sustainable security effects that our polities societies and economies expect may lie in in the realms of prevention and resilience Also in those areas any large scale application of AI will have to result from a preliminary open minded on all sides public debate on its legal ethical and privacy implications The authors submit however that such a debate would be more fruitful than the current heated discussions about killer drones or robots Finally the study suggests that the advent of artificial super intelligence i e AI that is superior across the board to human intelligence which many experts now put firmly within the longer term planning horizons of our DSOs presents us with unprecedented risks but also opportunities that we have to start to explore The report contains an overview of the role that intelligence the computational part of the ability to achieve goals in the world has played in defense and security throughout human history a primer on AI what it is where it comes from and where it stands today in both civilian and military contexts a discussion of the broad option space for DSOs it opens up 12 illustrative use cases across that option space and a set of recommendations for especially small and medium sized defense and security organizations

Great Power Conduct and Credibility in World Politics Sergey Smolnikov,2018-05-04 This book seeks to answer one main question what is the core concern of great powers that streamlines their behavior in the contemporary system of international relations Building on the examples of the United States China Russia France and Britain it tracks both consistency and fluctuations in global power dynamics and great power behavior The author examines the genesis causality and policy implications of decision makers fixation with retaining a credible image of power in world politics while exploring how the dynamics of power distribution in international systems modify perceptions of primacy Drawing on findings from disciplines such as history economics social and political psychology communication theory philosophy political science

strategic studies and above all from International Relations theory and practice the volume proposes a novel theory of power credibility which offers an original explanation of great powers behavior at the stage of their relative decline AI in the Wild Peter Dauvergne, 2020-09-15 Examining the potential benefits and risks of using artificial intelligence to advance global sustainability Drones with night vision are tracking elephant and rhino poachers in African wildlife parks and sanctuaries smart submersibles are saving coral from carnivorous starfish on Australia's Great Barrier Reef recycled cell phones alert Brazilian forest rangers to the sound of illegal logging The tools of artificial intelligence are being increasingly deployed in the battle for global sustainability And yet warns Peter Dauvergne we should be cautious in declaring AI the planet's savior In AI in the Wild Dauvergne avoids the AI industry powered hype and offers a critical view exploring both the potential benefits and risks of using artificial intelligence to advance global sustainability **TURKISH POLICY QUARTERLY - VOL. 19 - NO. 2 - SUMMER 2020** Baiba Braze, Gülnur Aybet, Steven Pifer, Giorgi Badridze, Wang Yiwei, Wu Xinze, Corneliu Bjola, Ilan Manor, Biljana Vankovska, Ulrich Kühn, Şaban Kardaş, Omar Al-Ubaydli, Lyu Jinghua, Gaurav Kalwani, Türksoy Emen, Emrah Yıldırımçakar, Roger Kelly, 2020-09-01 TPQ's Summer issue NATO in 2020 and Beyond New Strategies and Frontiers offers insights on the Alliance's current challenges and future security trends while offering a look into Euro Atlantic relations in the coming decade It is clear that as the international security landscape is rapidly changing member states capabilities resilience and most importantly their commitment will be put to the test In December 2019 NATO Leaders gathered in London to celebrate the Alliance's 70 year history and assess the current state of transatlantic bonds A growing list of both internal and external issues that will continue to be important for NATO were discussed including Russia's deployment of intermediate range missiles NATO's expansion policy China's growing influence on the international stage and strategic divisions among member states The COVID 19 pandemic poses a particularly pressing challenge to NATO and its crisis response efforts Headlining the Summer 2020 issue is NATO Assistant Secretary General Baiba Braze whose article focuses on the Alliance's resilience in response to the COVID 19 pandemic Underlining the importance of multilateralism in the face of global crises Braze explains NATO's role in supporting wider efforts to fight the virus while also critically preventing the health crisis from spawning security crises Braze concludes by outlining NATO's 2030 vision which prioritizes making the Alliance stronger politically as well as extending its global reach Discussing the future of the transatlantic relationship in a declining liberal world order Senior Advisor to the President of Turkey Gülnur Aybet argues that the policies of certain allies have forced Turkey to become a self help state Aybet illustrates a revised and inclusive liberal world order in which Turkey is understood in its own context and thus approached accordingly Other topics taken up in this issue are the consequences of the INF Treaty's demise and NATO's digital public diplomacy efforts Several of our authors discuss NATO's expansion policy including North Macedonia's recent accession as the Alliance's 30th member and the prospective memberships of Ukraine and Georgia **Pivot to the Future** Omar Abbosh, Paul Nunes, Larry Downes, 2019-04-23 The

proven effective strategy for reinventing your business in the age of ever present disruption Disruption by digital technologies That s not a new story But what is new is the wise pivot a replicable strategy for harnessing disruption to survive grow and be relevant to the future It s a strategy for perpetual reinvention across the old now and new elements of any business Rapid recent advances in technology are forcing leaders in every business to rethink long held beliefs about how to adapt to emerging technologies and new markets What has become abundantly clear in the digital age conventional wisdom about business transformation no longer works if it ever did Based on Accenture s own experience of reinventing itself in the face of disruption the company s real world client work and a rigorous two year study of thousands of businesses across 30 industries Pivot to the Future reveals methodical and bold moves for finding and releasing new sources of trapped value unlocked by bridging the gap between what is technologically possible and how technologies are being used The freed value enables companies to simultaneously reinvent their legacy and current and new businesses Pivot to the Future is for leaders who seek to turn the existential threats of today and tomorrow into sustainable growth with the courage to understand that a wise pivot strategy is not a one time event but a commitment to a future of perpetual reinvention where one pivot is followed by the next and the next
