Rediscovering Jacob Riis Bonnie Yochelson, Daniel Czitrom, 2024-05-31 Before publishing his pioneering book *How the Other Half Lives* a photojournalistic investigation into the poverty of New York's tenement houses home to three quarters of the city's population Jacob Riis 1849-1914 spent his first years in the United States as an immigrant and itinerant laborer barely surviving on his carpentry skills until he landed a job as a muckraking reporter These early experiences provided Riis with an understanding of what it was like to be poor in the immigrant communities that populated New York's slums and it was this empathy that would shine through in his iconic photos With *Rediscovering Jacob Riis* art historian Bonnie Yochelson and historian Daniel Czitrom place Jacob Riis's images in historical context even as they expose a clear sightline to the present In the first half of their book Czitrom explores Riis's reporting and activism within the gritty specifics of Gilded Age New York its new immigrants its political machines its fiercely competitive journalism its evangelical reformers and its labor movement In delving into Riis's intellectual education and the lasting impact of *How the Other Half Lives* Czitrom shows that though Riis argued for charity not sociopolitical justice the empathy that drove his work continues to inspire urban reformers today In the second half of the book Yochelson describes for the first time Riis's photographic practice his initial reliance on amateur photographers to take the photographs he needed his own use of the camera and then his collecting of photographs by professionals who by 1900 were documenting social reform efforts for government agencies and charities She argues that while Riis is rightly considered a revolutionary in the history of photography he was not a photographic artist Instead Riis was a writer and lecturer who first harnessed the power of

photography to affect social change As staggering inequality continues to be an urgent political topic this book illustrated with nearly seventy of Riis's photographs will serve as a stunning reminder of what has changed and what has not **Public Images** Ryan Linkof, 2020-08-12 The stolen snapshot is a staple of the modern tabloid press as ubiquitous as it is notorious The first in depth history of British tabloid photojournalism this book explores the origin of the unauthorised celebrity photograph in the early 20th century tracing its rise in the 1900s through to the first legal trial concerning the right to privacy from photographers shortly after the Second World War Packed with case studies from the glamorous to the infamous the book argues that the candid snap was a tabloid innovation that drew its power from Britain's unique class tensions Used by papers such as the Daily Mirror and Daily Sketch as a vehicle of mass communication this new form of image played an important and often overlooked role in constructing the idea of the press photographer as a documentary eyewitness From Edward VIII and Wallis Simpson to aristocratic debutantes Lady Diana Cooper and Margaret Whigham the rage of the social elite at being pictured so intimately without permission was matched only by the fascination of working class readers while the relationship of the British press to social economic and political power was changed forever Initially pioneered in the metropole tabloid style photojournalism soon penetrated the journalistic culture of most of the globe This in depth account of its social and cultural history is an invaluable source of new research for historians of photography journalism visual culture media and celebrity studies *The Culture of Photography in Public Space* Anne Marsh, Melissa Miles, Daniel Palmer, 2015-05-01 From privacy concerns regarding Google Street View to surveillance photography's association with terrorism and sexual predators photography as an art has become complex terrain upon which anxieties about public space have been played out Yet the photographic threat is not limited to the image alone A range of social technological and political issues converge in these rising anxieties and affect the practice circulation and consumption of contemporary public photography today *The Culture of Photography in Public Space* collects essays and photographs that offer a new response to these restrictions the events and the anxieties that give rise to them Public Art in Canada Annie Gérin, James S. McLean, 2011-03-18 Arguably public art is experienced daily by more people than most offerings in galleries yet our notion of what constitutes public art is surprisingly limited *Public Art in Canada* broadens the critical discussion by exploring public art's varied means of engaging with public space and the public sphere Annie Gérin and James S. McLean have assembled contributions from new and established Canadian scholars curators and artists Each contributor enlivens our understanding of public art as a practice and its place in the social and aesthetic formation of which it is a part As a result the book provides an overview of the current debates in the field of public art that are informed by the theories and critical literature of art history communication studies cultural studies sociology and urban studies The rigorous essays and original works of art collected in this volume present a compelling demonstration of the strategies aesthetic and otherwise used by artists to elicit intellectual sensual or emotional responses that can only be obtained through artistic practices in public

places Public Art in Canada is a major contribution to the study of Canadian art and culture Handbook of Ethnography Paul Atkinson, 2001-03-22 This handbook provides a critical guide to the past present and future of ethnography **Images in Mobile Communication** Corinne Martin, Thilo von Pape, 2011-10-03 This volume provides an original perspective on mobile communication focusing on the emerging deployment of images in mobile phone usage photography video mobile television mobile internet etc Deeply embedded in our audiovisual culture images possess the undeniable power to reshape the future of the mobile phone as an individual mass medium In this collection European researchers in media and communication studies sociology anthropology and political science present empirical and conceptual work on a wide range of issues including cultural change new forms of sociability on individual and societal levels tactics and strategies of users and producers and finally representations and imaginaries of the mobile phone in other established media This book is written for researchers and students of sociology communication studies and cultural studies as well as for practitioners of interactive media and online communication **The Visual Language of Technique** Luigi Cocchiarella, 2015-03-14 The book is inspired by the second seminar in a cycle connected to the celebrations of the 150th anniversary of the Politecnico di Milano Working with the Image Description Processing Prediction was the motto of this meeting aiming to point out the role of Visual Language not only in describing reality but also in supporting the thinking processes in Science prediction in Art invention in Technical studies prevision and in identifying and working on both visible and invisible phenomena As John Barrow states So often a picture is better than a thousand words and The visual language is the most natural while the other language could reasonably be considered as postscripts to the human story The essays included in the volume from lectures the poster session interviews and round table will show the wide range of technical possibilities connected with the present use of the Image especially thanks to Computer Graphics from 3D Modeling to Augmented Reality while also offering a glimpse of interesting theoretical perspectives In the end as noted by Martin Heidegger the word theory not only comes from the Ancient Greek verb theoreo that is to see to observe but it also echoes the words theos and thea namely god and goddess and above all it shares the root with the term aletheia which is the truth which is not far from the ultimate goal of research

Fractured Fifties Christine Sprengler, 2023 The 1950s as a cultural concept has surged with astonishing force over the last half century Cultural and political investment in the postwar era has been heavily determined by the desires anxieties ideologies and technologies of the contexts in which they surface In this book author Christine Sprengler explores how contextualizing factors shaped the 1950s in different ways and how cinematic representations spearheaded challenged or intervened in our cultural memories of the era Fractured Fifties The Cinematic Periodization and Evolution of a Decade presents a two pronged argument that cinema helped define the 1950s by contributing in considerable and meaningful ways to the process of periodization and subsequently a common conception of the decade and that cinema itself has fractured our understanding of the 1950s Fractured Fifties challenges a reductive and fairly cohesive set of tropes with a complex

amalgam of representations that also intervene in debates about historiography historicity cultural memory mediation nostalgia and periodization Ultimately Sprengler posits that cinema has complicated our sense of the 1950s yielding in the process a series of 1950s types or kinds e g *The Leave it to Beaver Fifties* *The Jukebox Fifties* and *The Cold War Fifties* *The Retromediated Fifties* as well as a wealth of critical insights into myriad pasts presents and the evolving relationships between them

Granular Modernism Beci Carver, 2014 Granular Modernism understands the way that some modernist texts put themselves together as a way of pulling themselves apart In this volume Beci Carver offers a new way of reading Modernist texts by drawing attention to the anomalies that make them difficult to summarise or simplify Carver proposes that rather than trying to find the shapes of narrative or argument in their writing the Granular Modernists namely Joseph Conrad William Gerhardt Evelyn Waugh Henry Green T S Eliot W H Auden and Samuel Beckett experiment in certain of their works in finding the shapelessness of a moment in history that increasingly confidently called itself modern which was to call itself shapeless The project of modernism in the late nineteenth and the first half of the twentieth century was to find a story to tell about an era full of beginnings The project of Granular Modernism was to find a way of turning the inchoateness of the modern moment into art Granular Modernism takes from the Naturalist movements of the nineteenth and early twentieth century its attentiveness to the process of mundane experiences like eating or waiting But where Naturalism sets out to offer a complete picture of a way of life Granular Modernism's eating and waiting fail to amount to anything more to paraphrase Evelyn Waugh The most they can hope for is a cumulative futility Frank Norris once described one of Stephen Crane's narrators as a locust in a grain elevator attempting to empty the silo by carrying off one grain at a time Norris is being dismissive But his image of pointless meticulous indefinite manoeuvre potentially defines the ambition of the Granular Modernists
