Gozdzia,2016-05-10 Trafficked children are portrayed by the media and even by child welfare specialists as hapless victims who are forced to migrate from a poor country to the United States where they serve as sex slaves But as Elzbieta M Gozdzia reveals in Trafficked Children in the United States the picture is far more complex Basing her observations on research with 140 children most of them girls from countries all over the globe Gozdzia debunks many myths and uncovers the realities of the captivity rescue and rehabilitation of trafficked children She shows for instance that none of the girls and boys portrayed in this book were kidnapped or physically forced to accompany their traffickers In many instances parents or smugglers paid by family members brought the girls to the U S Without exception the girls and boys in this study believed they were coming to the States to find employment and in some cases educational opportunities Following them from the time they were trafficked to their years as young adults Gozdzia gives the children a voice so they can offer their own perspective on rebuilding their lives getting jobs learning English developing friendships and finding love Gozdzia looks too at how the children s perspectives compare to the ideas of child welfare programs noting that the children focus on survival techniques while the institutions focus not helpfully on vulnerability and pathology Gozdzia concludes that the services provided by institutions are in effect a one size fits all trauma based model one that ignores the diversity of experience among trafficked

children Breaking new ground Trafficked Children in the United States offers a fresh take on what matters most to these young people as they rebuild their lives in America

Philosophy and Child Poverty Nicolás Brando, Gottfried Schweiger, 2019-09-12 This book offers a broad and diverse reflection of the ways in which child poverty could be conceptualised and the ways in which it is intertwined with childhood as a specific social condition Furthermore the responsibilities towards children and the possible mechanisms required for dealing with this condition will be analysed and clarified This is the first volume on philosophy and child poverty Despite the increasing number of publications on poverty the particular phenomenon of poverty during childhood has not received much philosophical attention This is surprising given the severity and depth of child poverty around the globe This volume brings together various philosophical approaches and how they understand and tackle child poverty This is an important addition to the philosophical literature which is also of wider interest to scholars working in the social sciences and with an interest in child poverty

Intergenerational Mobilities Lesley Murray, Susan Robertson, 2016-10-04 Drawing from work on mobilities and geographies of the lifecourse this collection is concerned with the ways in which age as a relational concept is constructed and played out in mobile urban space With studies of ageing and mobility often focusing on discrete age groups most notably children and older people this study seeks to fill a gap in existing literature by exploring mobility in relation to the lifecourse and generation looking not only at the margins Whilst some generations are increasingly mobile others are less so and this disparity in mobility opportunity is relational as age is relational This book addresses gaps in knowledge in relational geographies of ageing whilst contributing to literature on mobility and transport in particular the burgeoning field of mobility in justice Here mobility is considered in its broadest sense for example in relation to the movement or lack of movement of bodies and to computer mediated intergenerational communications Through focusing on urban mobile spaces from very local spaces of medical care to global spaces of migration that are the context for intergenerational mobilities this collection explores these interdependencies and considers ways in which intergenerational mobilities are conceptualised and researched
