Education of Cancer Healing Vol. VIII - Martyrs Peter Havasi, **Cancer Recovery Guide** Jonathan Chamberlain, 2013-10-04 In Europe and the USA we have a 40 50% chance of getting cancer at some time in our lives So what do you do if you are diagnosed with the disease The harshness of orthodox treatments surgery radiation and chemotherapy are well known Their use is widespread but their results are not impressive Faced with these options informed patients are increasingly seeking out alternative or complementary strategies to take control of their own healing This book provides an overview of them Jonathan Chamberlain watched his wife suffer and eventually die both from her cancer and from the direct effects of the orthodox treatments she had undergone This experience led him on a journey in search of other methods of overcoming cancer What he discovered stunned him There are cures out there dozens of them many offering very good chances of recovery In *Cancer Recovery Guide* Chamberlain presents 15 simple practical strategies for becoming well again These strategies are grouped in three families those relating to the mind and the emotions did you know stress makes cancers more aggressive those relating to the health of the whole body cancer cannot survive in a tissue environment that is truly healthy and those that focus on directly attacking the cancer tumours The personal stories cited throughout the book testify to the curative possibilities of the strategies presented *Cancer Journey Handbook for Travellers, Carers and Friends* Cherie Nobbs, 2009 *Cancer Journey Handbook for Travellers Carers Friends* is a handbook that friends carers or travellers cancer patients can use for advice and comfort while going through a cancer journey It covers emotional physical side effects of cancer as well as presenting some of the many options available to travellers *Curing Cancer & Heart Disease* Geoff A Mohr, PhD, **I Used to Have Cancer** James Templeton, 2019-04-09 By all standards of success James Templeton seemed to have it all He was a highly successful businessman had a beautiful wife and daughter and only in his early thirties had his whole life in front of him To avoid the same fate as his father and grandfather who both died of heart attacks at a young age James became an avid runner a passion that he believed helped him stay fit and healthy Imagine his shock when during a routine physical his doctor noticed a mole on his body that turned out to be a melanoma a dangerous form of skin cancer The mole was removed immediately and James who was diligent in his follow up exams appeared to be cancer free but only for a short while When the cancer reappeared and had spread on the advice of his doctor James followed the conventional medical protocol which included surgery and chemotherapy He was also involved in a clinical trial When he learned that the treatments weren't working James was obviously devastated He had reached a new low point in his life and as he lay in the hospital bed he prayed fervently for help As if by some miracle help came to James in the form of three different visitors who would change the course of his life and help direct him on a path back to health *I Used to Have Cancer* is James Templeton's memoir an inspiring look back at his unique journey in overcoming stage 4 melanoma James takes you with him on a trip crisscrossing America during which he shares the various natural approaches he followed to

battle his cancer from diet and supplements to meditation and lifestyle adjustments As his journey continued you will see first hand how James definition of success changed from making money to seeing the next sunrise And how he continues finding success by reaching out to others to share the lessons he has learned While this book largely focuses on the various methods James used to overcome his own cancer it is also an inspiring story of not giving up when all other avenues of conventional medicine fail It is about taking control of your life and finding a way back from the brink of death It is about being able to tell your friends I used to have cancer

My Dog Has Cancer. What Can I Do? Heather Beuke Diers,2016-03-03 While documenting Nolas journey with cancer and holistic medicine I gathered information that can now guide you through every stage of your dogs cancer After completing hundreds of hours of research and taking a great team of veterinarians advice I have created an economical cancer fighting and immune building protocol for any canine or human fighting cancer I explain how cancer works in the body and how to create a cancer killing environment with wait for itFOOD How you treat the body will affect the outcome this thought should empower you Although we were able to turn a three months to live diagnosis into a year of great quality of life for our girl I believe we could have prolonged her life even longer if we had started with the protocol with which we ended shared in My Dog Has Cancer What Can I Do Nola had a fast spreading incurable cancer osteosarcoma which would not wait for me to catch up on my research My mission is to save you time so you can start fighting cancer immediately The intent is not to persuade you to do exactly as we did I also share our mistakes and changes I would consider if faced with the same circumstances again This protocol should not replace the care of your veterinarian and other necessary medical providers Always inform them of all food and supplements in your protocol before giving them to your pet I am not a veterinarian but I worked closely with my veterinarian who practices both Western and holistic medicine while building our protocol to treat Nolas cancer

Metastatic Breast Cancer: From Diagnosis to Complete Remission Denice Jeffery,2014-04 As a psychologist Denice Jeffery helped others learn to face their greatest fears

with courage and integrity But on a dark day in 2005 she would need to learn how to apply those same support strategies to her own life That day she learned that she had breast cancer Just five years later she was told that the cancer had metastasized spreading throughout her body A remarkable journey began then now she is officially in complete remission Here she shares her experiences honestly and intimately Although she had radiation she refused chemotherapy in favor of more natural therapies She bravely rejected her terminal diagnosis and started on a race for her very life hoping to unearth complementary strategies that could potentially ensure her survival In Part One she invites you into the life of a patient who refused to accept that there was nothing to be done In Part Two she details the strategies supplements and protocols she used to overcome her cancer Her story from diagnosis to complete remission and how she achieved that transformation offers hope to anyone facing cancer Not wanting to give up and just hand over to chemotherapy Ms Jeffery did her research and found a variety of alternatives that each had good if largely anecdotal successes but which made sense to her in terms of theory She also did a voyage through her own psyche to smooth the path and in the end has won the day and shares it all with the reader Dr Val Lewis Noosa Heads Queensland Australia *AIDS, South Africa, and the Politics of Knowledge*
