Capitalism Johan Fornäs, 2014-04-16 In the most complete accurate and accessible presentation of Karl Marx's theory of capitalism to date Johan Fornäs presents a guide for anyone who wants to understand how today's crisis-ridden society has emerged and is able to sustain and intensify its own deep inner contradictions Capitalism clearly explains these contradictions which are so relevant again today in the wake of the financial crisis This clear and engaging guide explains capitalism for absolute beginners Fornäs situates Marx's ideas in context remaining faithful to the concepts and structure of his work This complete introduction to Marx's economy critique covers all three volumes of *Capital* It explores all the main aspects of Marx's work including his economic theory his philosophical sophistication and his political critique introducing the reader to Marx's typical blend of sharp arguments ruthless social reportage and utopian visions This book will be of interest to students throughout the social sciences and humanities including those studying sociology social theory economics business studies history cultural studies and politics

33 Lessons on Capital Harry Cleaver, 2019-10-20 This book provides an up to date reading of *Capital* Volume I emphasizing the relevance of Marx's analysis to everyday twenty-first century struggles Harry Cleaver's treatise outlines and critiques Marx's analysis chapter by chapter His unique interpretation of Marx's labour theory of value reveals how every theoretical category of *Capital* designates aspects of class struggle in ways that help us resist and escape them At the same time while rooted within the tradition of workerism he understands the working class to include not only the industrial proletariat but also unwaged peasants housewives children and students A challenge to scholars and an invaluable resource for students and activists today

Essays on Marx's Capital Geert Reuten, 2024-05-13 In this book Geert Reuten presents 21 of his previously published essays on the three volumes Marx's *Capital* dating from 1991-2019 The essays largely take the form of a summary of Marx's text a Volume or its Parts or Chapters followed by an appreciation and when required a reconstruction The book thus offers an overview of each of the three volumes of *Capital* including their interconnection as well as a focus on specific Parts of *Capital* Throughout the general overviews and more focused analyses Reuten emphasises Marx's systematic dialectical method and his monetary value form analysis

Federal Register, 2014 **Directory of Corporate Counsel, 2025 Edition** In house, **Beyond Capital** Michael A. Lebowitz, 2016-07-27 Marxism has long been accused of economic determinism reductionism and a silence on human experience *Beyond Capital* argues that these problems can be traced back to Marx's failure to write his planned book on Wage Labour Added to this the subsequent ignorance of Marx's method the result has been an inaccurate presentation of Marxian Rather than rejecting Marx *Beyond Capital* argues that his political economy of the working class and the process of struggle are central for going beyond capitalism

The Dialectic of Capital (2 Vols.) Thomas Sekine, 2020-07-13 This is the first book written in English that tries to expose the thing in itself or inner logic of capitalism in a form homomorphic to Hegel's Logic following the method previously established in Japan by K z Uno 1987 1977 Neither bourgeois liberal nor even conventionally Marxist economics possess a logical hence objective knowledge of capitalism as such which is regrettable The manuscript of this book was completed in typescript at York University Canada in 1983 then privately published in that form by the author in about 500 copies which are by now virtually dispersed In order however to re launch economics as objective knowledge when the world must prepare itself to correctly terminate capitalism we need to rediscover a book of this kind as a dependable guide

Marx's Capital Ben Fine, 1989-06-16 Since it first appeared in 1975 Ben Fine's introductory account of Capital has become the most popular text of its kind used widely across the social sciences and also read by a wider audience Its translation into several languages and its frequent reprinting is testimony to the role it has played in serving the growing interest in Marxist economics The third edition has been substantially revised and expanded to include discussion of controversial areas such as the transformation problem falling profitability rent theory and the theory of interest A

Socialism for the Twenty-First Century Tony Smith, 2025-07-10 Marx called for a society where the ruling principle is the full and free development of every individual Capitalism neither is nor can be such a society Domination worsening ecological crises and many other pathologies are its intrinsic features not bugs that can be corrected But is there truly a better way to organize society And if we can imagine one can we be confident it could be put into practice The answer to both questions is an emphatic Yes This book makes the case It describes in detail a workable model of republican socialism a vision of socialism worth fighting for

A Guide to Marxian Political Economy Teinosuke Otani, 2018-02-24 This textbook offers a comprehensive guide to the systematic structure of capitalism while at the same time introducing readers to all three volumes of Marx's Capital Based on his extensive expertise on Marx's critique of political economy the author reveals the specific structure of production in capitalist societies and explicates what sets this system apart from other modes of production Marx's political economy is explained in a systematic and easy to understand manner using numerous illustrative diagrams to complement the text This textbook will appeal to all students and scholars looking for a more comprehensive systematic and theoretical explanation of capitalism equipping them with a solid theoretical understanding of its core structure

DIRECTORY OF CORPORATE COUNSEL, 2023 Directory of Corporate Counsel, 2024 Edition, *The Commons* Vangelis Papadimitropoulos, 2020-10-20 This book explores the potential creation of a broader collaborative economy through commons based peer production P2P and the emergent role of information and communication technologies ICTs The book seeks to critically engage in the political discussion of commons based peer production which can be classified into three basic arguments the liberal the reformist and the anti capitalist This book categorises the liberal argument as being in favour of the coexistence of the commons with the market and the state Reformists on the other hand advocate for the gradual adjustment of the state and of capitalism to the commons while anti capitalists situate the commons against capitalism and the state By discussing these three viewpoints the book contributes to contemporary debates concerning the future of commons based peer production Further the author argues that for the commons to become a fully operational mode of peer production it needs to reach critical mass arguing that the liberal argument underestimates the reformist insight that technology has the potential to decentralise production thereby forcing capitalism to transition to post capitalism Surveying the three main strands of commons based peer production this book makes the case for a post capitalist commons orientated transition that moves beyond neoliberalism

Tramway and Railway World, 1906 **Plunkett's Energy Industry Almanac 2009** Jack W. Plunkett, 2008-12 The energy industry is boiling over with changes This title offers a reference tool to the energy industry that covers various things from major oil companies to independents utilities pipelines coal LNG oil field services and refiners It includes over a dozen statistical tables and profiles of The Energy 500 Firms

Economic Studies (Routledge Revivals) David Levine, 2013-01-11 First published in 1977 David Levine's Economic Studies offers a critique and reconstruction of the theoretical conception of economic life The premise of the study is that

only an investigation of the system of elementary economic relations value capital production can overcome the confusion and misdirection which baffles progress in all areas of economic theory and lay the foundation for further development of economic science Levine discusses both the origins of economic science and the character of contemporary economic thought He presents a critique of the ideas of classical political economy and of the notion of a labor theory of value which excludes the possibility of a science of economic relations **The Electrical Review** ,1928
