Capitalist Nigger Road To Success :

Capitalist Nigger Chika Onyeani, 2012-03-27 Capitalist Nigger is an explosive and jarring indictment of the black race. The book asserts that the Negroid race as naturally endowed as any other is culpably a non productive race a consumer race that depends on other communities for its culture its language its feeding and its clothing. Despite enormous natural resources blacks are economic slaves because they lack the devil may care attitude and the killer instinct of the Caucasian as well as the spider web mentality of the Asian. A Capitalist Nigger must embody ruthlessness in pursuit of excellence in his drive towards achieving the goal of becoming an economic warrior. In putting forward the idea of the Capitalist Nigger Chika Onyeani charts a road to success whereby black economic warriors employ the Spider Web Doctrine discipline self reliance ruthlessness to escape from their victim mentality. Born in Nigeria Chika Onyeani is a journalist editor and former diplomat.

The Man Who Shook Mountains Lesley Mofokeng, 2023-03-15 This is a South African story of an unsung hero a man forgotten by history though not by me nor by the people who knew and respected him. When his grandfather gave sermons he was capable of shaking mountains a church leader tells journalist and author Lesley Mofokeng. Ntate Mofokeng pulled people towards God with the great and rare talent of a motivator. In this revealing book Mofokeng investigates the life of his grandfather Mongangane Wilfred Mofokeng a prominent Dutch Reformed Church evangelist. In the 1950s as Black South Africans were being evicted from the cities to live in reserves and homelands Mongangane set out to build a community at a dusty cattle post in the far North West province. There he managed to establish a resilient community that mostly lived outside the repressions of the apartheid regime. The journey takes the author from Johannesburg's Marabi soaked townships of the 1930s to his childhood home of Gelukspan near Lichtenburg and then to rural Free State and the mountain kingdom of Lesotho. In what becomes a spiritual quest he traces the inspirational footsteps of his ancestors and the legendary King Moshoeshoe. Mofokeng also explores the politics and history of the Dutch Reformed Church's Black constituency and uncovers why to this day it is called Kereke ya Fora or Church of the French and its hymns are sung across denominations and in social spaces outside the church.

Africans Have Sold Their Souls: Uhumwe the One Big Idea for Africa Ben C Chiganze, 2023-07-21 For how long should Africa continue to be associated with hunger poverty desperation corruption and mediocrity For how long will Africa's natural endowments continue to be viewed as a curse instead of a blessing When are our children going to put on new clothes instead of relying on second hand clothes When are we going to stop seeking handouts from other nations as if they owe us a living Have we voluntarily agreed to be a laughing stock for the whole world Have we and our unborn accepted to be labelled third world forever It is time for African leaders to deliver their populace to the Promised Land through diligence and hard work Africa needs to rise above the borders and boundaries which were constructed by the Berlin Conference of 1884 and create a new society which is grounded in its rich cultural soils It is time we start showcasing to the world our rich cultural heritage We need to innovate our products and services along with our cultural dexterity The author proposes a set of solutions to these deep seated and systemic problems These solutions are rooted in the concept of Uhumwe or togetherness which he believes will provide both a strength of belief and a concept which can help African business leaders innovators politicians and others in realising the dream of prosperity for Africa

Risking Life for Death Ryan Blumenthal, 2023-07-03 Every contact leaves a trace a single strand of hair or a tiny droplet of blood can be the silent witness at a crime scene Locard's Exchange Principle underpins all forensic science and holds that the perpetrator of a crime will bring something to the crime scene and leave with something from it Forensic experts use this principle daily to catch murderers and assailants In Risking Life for Death South African forensic pathologist Ryan Blumenthal offers a master class in this singular forensic technique based on real life case studies With more than twenty years experience in the field Blumenthal explains how to look for clues and traces and how what he does not find at autopsy is often more important than what he does find In other words the absence of evidence can sometimes be of greater value than the presence of evidence His account also highlights the dangers forensic pathologists are exposed to daily As they try to unravel the puzzle of someone's death forensic pathologists often face life threatening infections toxic gases and the hazards associated with high profile cases in effect risking their life to solve someone else's death An understanding of Locard's Exchange Principle can

help you become a medical detective in your own life can help you be a happier person and can even provide you with a better philosophy for growing older Blumenthal argues

The Boer Invasion of The Zulu Kingdom 1837-1840 John Laband, 2023-02-16 The battle of Blood River or Ncome on 16 December 1838 has long been regarded as a critical moment in the history of South Africa It is the culminating victory by the land hungry Boers who had migrated out of the British ruled Cape and invaded the Zulu kingdom in 1837 Many Afrikaners long acclaimed their triumph as the God given justification for their subsequent dominion over Africans By contrast Africans celebrate the war with pride for its significance in their valiant struggle against colonial aggression In this account John Laband deals as even handedly as possible with the warring sides in the conflict In contrasting their military systems he explains both victory and defeat in the many battles that marked the war Crucially he also presents the less familiar Zulu perspective explaining the political motivation strategic military objectives and fissures in the royal house This is the first book in English that engages with the war between the Boers and the Zulu in its entire context or takes the Zulu evidence into proper account

Countdown to Socialism Anthea Jeffery, 2023-07-19 With growth stalling joblessness at crisis levels and governance unravelling most South Africans cannot fathom why the ANC does not embark on meaningful reform The answer lies in what is seldom raised the ruling party's unwavering determination to take the country by incremental steps from capitalism to socialism This transformation is being implemented via a Moscow inspired national democratic revolution NDR dating back many decades Despite the Soviet Union's collapse in 1991 the ANC SACP alliance still sees the NDR as offering the most direct route to socialism in South Africa and hence as its bedrock strategy The NDR has been implemented in many different spheres since 1994 By way of example NDR interventions have already made millions of people unemployable and the mining sector largely uninvestable They now aim at land expropriation without compensation EWC and the effective nationalisation of private healthcare and pensions The NDR is the key to understanding ANC rule over some 30 years yet most South Africans have been kept in the dark on it This book aims to fill that gap Written in clear and simple language it provides an indispensable primer on the NDR and its role in the countdown to socialism in South Africa

Capitalist Nigger Chika Onyeani, 2006 **Oblivion or Utopia** Chiku Malunga, 2009-12-08 Oblivion or Utopia the Prospects for Africa explains that most of the problems on the continent stem from the fact that although the continent may be politically independent it is not economically independent

Efforts to reverse the continent's continuing underdevelopment have failed to date including trillions of dollars in aid because they have not been consciously aimed at enabling Africa to turn its vast natural resources into wealth which is the only known way of ensuring economic independence. Based on a comprehensive exploration of impediments to reach the goal of economic independence required for self-definition, the book proposes a five-step strategy which can enable the continent to turn its natural resources into wealth by 1 Raising awareness and consciousness that Africa is not economically independent yet 2 Creating visions of aspiration 3 Organizing for wealth creation 4 Cultivating a business culture 5 Patronizing own businesses. A revolutionary implementation of the five steps, the author argues, would make utopia triumph over oblivion on the continent of Africa.

The Crises of Postcoloniality in Africa Omeje, Kenneth, 2017-05-05. The Crises of Postcoloniality in Africa is an assemblage of transdisciplinary essays that offer a spirited reflection on the debate and phenomenon of postcoloniality in Africa, including the changing patterns and ramifications of problems, challenges, and opportunities associated with it. A key conceptual rhythm that runs through the various chapters of the book is that far from being demised, postcoloniality is still firmly embedded in Africa, manifesting itself in both blatant and insidious forms. Among the important themes covered in the book include the concepts of postcolonialism, postcoloniality, and neocolonialism; Africa's precolonial formations and the impact of colonialism; the enduring patterns of colonial legacies in Africa; the persistent contradictions between African indigenous institutions and western versions of modernity; the unravelling of the postcolonial state and issues of armed conflict, conflict intervention, and peacebuilding; postcolonial imperialism in Africa; and the US-led global war on terror; the historical and postcolonial contexts of gender relations in Africa; as well as pan-Africanism and regionalist approaches to redressing the crises of postcoloniality.

Grappling with Change in Africa Emmanuel Danstan Chinunda, 2014-04-16. This book brings revolution to the African

continent It makes it clear that for Africans to advance in life they require a different approach to life The book uses proverbs and wise sayings from Africa to enhance the notion that Africa as a continent appreciates issues about change and other players from outside the continent get a buy in into change management It is now generally accepted that from Cape to Cairo one sees a continent pregnant with resources but it is classified as the poorest by bank balance The book uses African wisdom to help readers around the world to appreciate the African transformation Change is always hardest at the beginning but it gets easier and better as days transform into years Nothing in life changes without change The book suggests ways of how Africa can swing the pendulum and rise to be a global shining star by owning and using its natural resources wisely and embracing transformational leadership This would rewrite the economic order and turn the richest poor continent into a super rich continent

Animal Farm Prophecy Fulfilled in Africa Chiku Malunga,2014-09-08 Animal Farm Prophecy Fulfilled in Africa A Call to a Values and Systems Revolution discusses why deep levels of poverty and suffering persist in Africa despite all the successive regime changes over the last half century It discusses why more people are poorer now than they were in the colonial era The author argues that this is so because most of the leadership change efforts on the continent focus on replacing individuals rather than changing or overhauling the negative systems and the values inherent in the systems that the individual leaders inherit create or perpetuate The problems persist because they are systemic rather than personal in nature Deep and lasting change that could result in lifting millions of people out of poverty will only occur when the systems rather than only the individuals are changed or replaced The author challenges ordinary citizens especially the youth to rise up against animal farm systems in order to create the tomorrow to which they aspire and deserve
