Florence and Its Church in the Age of Dante George W. Dameron, 2013-05-27 By the early fourteenth century the city of Florence had emerged as an economic power in Tuscany surpassing even Siena which had previously been the banking center of the region In the space of fifty years during the lifetime of Dante Alighieri 1265 1321 Florence had transformed itself from a political and economic backwater scarcely keeping pace with its Tuscan neighbors to one of the richest and most influential places on the continent While many historians have focused on the role of the city's bankers and merchants in achieving these rapid transformations in Florence and Its Church in the Age of Dante George W Dameron emphasizes the place of ecclesiastical institutions communities and religious traditions While by no means the only factors to explain Florentine ascension no account of this period is complete without considering the contributions of the institutional church In Florence economic realities and spiritual yearnings intersected in mysterious ways A busy grain market on a site where a church once stood for instance remained a sacred place where many gathered to sing and pray before a painted image of the Virgin Mary as well as to conduct business At the same time religious communities contributed directly to the economic development of the diocese in the areas of food production fiscal affairs and urban development while they also provided institutional leadership and spiritual guidance during a time of profound uncertainty Addressing such issues as systems of patronage and jurisdictional
