Asa Hoffmann,1996 *Formation Attacks* Joel Johnson,2010 As a Chess Master who has spent many years playing

aggressive and attacking chess I was quite dismayed during a recent visit to my local bookstore I was in search of a book that covered an array of attacks against many Pawn formations in an organized fashion Needless to say my search came up empty

The books on attacking fell short in many ways Many of the books were simply a small collection of attack games with no instruction about the art of attacking or about the skills required to become a great attacker None of them provided the reader with any reference information about attacking or the weaknesses of various Pawn formations None of them contained games with attacking themes like the Traxler Variation of the Two Knight s Defense and the Jack Young Fishing Pole None of them contained any wild attacking ideas that can stream from opening gambits such as the Blackmar Diemer Gambit King s Gambit Scotch Gambit Nakhmanson Gambit etc 500 pages 435 games Figurine Chess Notation

Formation Attack Strategies Joel Johnson,2012 The much awaited sequel to the best selling book *Formation Attacks* has arrived *Formation Attack Strategies* is another 500 page book full of great attack information with 579 fabulous attack games from all openings and all eras The games provided in the book came from an in depth global search for unique inspirational and original attacks from some of the world s greatest attackers Many of the them toil in remote areas of the planet and have only a local following Let me introduce you to attacking players like Guy West of New Zealand Marc Esserman of Boston MA Liu Wenzhe of China Kevin Seidler of Denver CO Manuel Bosboom of The Netherlands Dharshan Kumaran of India Padre Murphy of Ireland to name a few The book also contains discussions about many attack philosophies attack strategy and planning identification and exploitation of weaknesses and so much more If you are one of the many people who love my last book you will be ecstatic about *Formation Attack Strategies* *The Gijon International Chess Tournaments, 1944-1965* Pedro Méndez Castedo,Luis Méndez Castedo,2019-06-12 Focusing on the recovery of chess in Spain and Europe after World War II this book traces the development of the International Chess Tournaments in Gijon from 1944 to 1965 The authors cover the decline of world champion Alekhine and the rise of the child prodigy Arturo Pomar along with the great chess of Euwe Rossolimo Prins Medina Larsen and others Drawing on primary sources and testimonies of former players and organizers chapters feature the tournament tables winner s biographies historical commentaries and 213 games Appendices with biographical notes and tables of participants for each year are included
