Oliver Cornock

Saudi Arabias 2018 Budget Is The Countrys Largest Ever:

Oil and the political economy in the Middle East Martin Beck, Thomas Richter, 2021-08-17 The downhill slide in the global price of crude oil which started mid 2014 had major repercussions across the Middle East for net oil exporters as well as importers closely connected to the oil producing countries from the Gulf Following the Arab uprisings of 2010 and 2011 the oil price decline represented a second major shock for the region in the early twenty first century one that has continued to impose constraints but also provided opportunities Offering the first comprehensive analysis of the Middle Eastern political economy in response to the 2014 oil price decline this book connects oil market dynamics with an understanding of socio political changes Inspired by rentierism the contributors present original studies on Bahrain Egypt Jordan Kuwait Lebanon Oman Qatar Saudi Arabia and the United Arab Emirates The studies reveal a large diversity of country specific policy adjustment strategies from the migrant workers in the Arab Gulf who lost out in the post 2014 period but were incapable of repelling burdensome adjustment policies to Egypt Jordan and Lebanon who have never been able to fulfil the expectation that they could benefit from the 2014 oil price decline With timely contributions on the COVID 19 induced oil price crash in 2020 this collection signifies that rentierism still prevails with regard to both empirical dynamics in the Middle East and academic discussions on its political economy *The Report: Saudi Arabia 2019* Oliver Cornock, Home to an estimated 15% of the world s proven oil reserves and the single largest economy in MENA Saudi Arabia is a key regional and global player The Vision 2030 blueprint sets out regulatory budget and social reforms that will be implemented over the coming decade as the nation sets about curbing its reliance on crude oil production and export which accounted for 43.5% of GDP in 2018

The Report: Saudi Arabia 2020 Oliver Cornock, Saudi Arabia s decision to weaken the link between hydrocarbons and economic growth and pursue a policy of diversification has seen projects across a range of sectors come to fruition in the last several years While at present the twin crises presented by the Covid 19 pandemic and the unprecedented plunge in oil prices are causing significant short term uncertainty the reforms that have been put in place in recent years should stand the Kingdom in good stead over the longer term *The Report: Saudi Arabia 2023* Oliver Cornock, Saudi Arabia s dynamic economy is poised for growth driven by its Vision 2030 diversification agenda The Kingdom aims to transform its industries stimulate innovation and solidify its global position The country s commitment to modernise its energy sector targeting 650 GW of renewable energy by 2060 signals a promising future characterised by economic diversification and prosperity
