Seconds Think A Little Change A Lot English Edition:

Generation WTF Christine B. Whelan, 2011-05-01 We all know what WTF usually means it's an exclamation of frustration, anger and an understandable reaction to the brutal new economic realities that have hit young adults harder than any other group. WTF happened to promises of a bright future? What happened to the jobs? And what do we do now that the rules have changed? Recent college grads were raised in a time of affluence and entitlement, lulled into thinking that a golden future would happen. Young adults with few role models to teach values like thrift, perseverance and self control are ill equipped to cope with sacrifice and failure. Their dismal employment prospects are merely the most visible symptom of more significant challenges. Fortunately it's not too late to change course. This optimistic, reflective and technologically savvy generation already possesses the tools to thrive if only they learn to harness the necessary skills for success. In *Generation WTF* Christine Whelan does just that. Dr. Whelan, one of the foremost authorities on the history of the self-help genre, worked with more than one hundred young people to test and tweak the best old school advice and personalize it for the modern twenty-something. After a decade of researching the industry and years advising WTFers as they struggle to make their way in the real world, Dr. Whelan knows firsthand what advice works and what *Generation WTF* has to offer. Rather than focusing on the frustration that WTF usually stands for, Dr. Whelan leads the charge to reclaim the acronym as a battle cry for a positive future. *Generation WTF* will be a wise, tenacious and fearless generation strengthened by purpose and hope. This practical new guide will show these WTFers the way to success and instill lasting habits that will serve them well in both good times and bad.

Course Design Strategy Ethan Honary, 2021-07-01 This book is packed with strategies and insights that will help you design better training courses. It focuses on how people learn as the key factor in making design decisions. The book shows you how to design a good course for any field, no matter what medium you use to deliver it. Learn how the brain works, how people forget, how to gain and maintain attention and how to make a subject interesting. Then use the easy-to-follow guidelines to design strategically by increasing curiosity, making content emotional, making learners practise what they have learned and using failure as a teaching tool. The art of designing a course and making people learn is mastered through practical experience of running courses; the science is gained by evidence-based research on how people learn. The book combines the two, offering many examples and studies in cognitive psychology, neuroscience, instructional design and training the trainer. You will find lots of examples and studies in the book that provide insights that may not be obvious but that lead to important design decisions. They will change forever how you think about training design and delivery and help you design courses that your learners will love. In *Course Design Strategy* you will learn: How to make content memorable. What learners expect from a course. How people learn and forget and why this should be the cornerstone of any course design. How to use eureka moments and eureka concepts as the building blocks of course design. How to make content easy to learn. Why the presence of a feedback loop is crucial to learning. How to use exercises and tests to enhance learning.

Making Change

Work Emma Weber, Patricia Pulliam Phillips, Jack Phillips, 2016-05-03 Underpinned by decades of research and application Making Change Work shows that the lynchpin that connects change initiatives and their ultimate success is behavioural change The book brings together the ROI Institute's established methodology for aligning projects and programmes to business needs and for evaluating impact and ROI with the Turning Learning Into Action methodology developed by Emma Weber to support learning transfer It offers a step by step process that partners with any business initiative requiring behavioural change providing the critical link bridging the knowledge and application At the heart of the methodology is a framework for reflective conversation ensuring accountability and aligning people to the desired outcomes Cutting through complex change theory Making Change Work is a how to guide providing an end to end approach to solve the problem that businesses have grappled with for so long from change projects that don't deliver business impact It includes real life case studies from organizations such as BMW and the University of NSW Department of Innovation on how organizations are using the framework to create successful outcomes that are not just demonstrated but that are delivered and measurable It is ideal for any professional who is embarking on any organizational initiative requiring change and evaluation of the subsequent ROI whether it is a learning initiative quality initiative or change initiative
